HOW TO ORDER

**Be Sure to Get Your Order in
Promptly for Early Spring
Shipment**

SHIPPING SEASON

We begin filling orders in the fall as soon as our nursery stock is properly matured or ripened for transplanting, usually about October 1st, and continue digging and shipping during the entire fall and spring months. The planting season in the spring is usually over by June 1st, depending upon weather conditions and type of stock involved.

GUARANTEED

We guarantee to dig, pack and ship good, clean, thrifty, well grown trees and plants, in good growing condition. Failure may result from improper planting, lack of moisture, frosts, floods, over-fertilization, etc., and we cannot guarantee continued growth after stock is planted on customer's premises because this is entirely beyond our control. Claims, if any, for damages or inferior stock, must be made within five days after arrival.

TERMS

Cash with order, but orders will be booked if one-fourth value is received with order, remainder to be sent before time of shipment. Remit by money order, registered letter, check or draft. Use our convenient order blank inclosed.

Prices quoted herein are f.o.b. Selbyville. We do not prepay transportation. Express shipments are forwarded collect, the customer paying the delivery agent actual cost upon arrival. To avoid C.O.D. fees on parcel post shipments, we notify the customer amount due by mail after shipment is made and request remittance.

Carl Marcus

THERE IS A DIFFERENCE IN VIRUS-FREE STRAWBERRY PLANTS

Buntings' foundation planting stock is grown from plants started each year from our greenhouses and screenhouse. Following this procedure year after year, we maintain for

our customers the highest possible degree of freedom from virus and other diseases.

Better Methods of Growing Through Experience and Research

We are proud to bring to you our new Spring 1956 Catalog which features a balanced list of top quality plants, trees, shrubs, etc., for your garden and home grounds. We have tried to capture the exact beauty of the leading varieties to assure you of the best buy possible. Above all, we strive to bring you the best in quality through our growing and research departments. We have been greatly encouraged to continue this work, due to the fact that we have experienced the best year in our history, also numerous letters expressing satisfaction have been received.

We are featuring again this year our progress in the production of top quality virus-free Strawberry plants. OUR METHOD ASSURES OUR CUSTOMERS OF HIGHLY PRODUCTIVE STRAWBERRY PLANTS FOR AT LEAST TWO YEARS WITHOUT THE SPRAYING OR DUSTING OF THE PLANTS AND CHEMICAL TREATMENT OF THE SOIL WHICH WE DO AT OUR NURSERY BEFORE THE PLANTS ARE SENT TO OUR CUSTOMERS. Our program begins in our special greenhouses (pictured above) where plants are grown in fumigated soil. Plants are indexed and carefully observed to be sure they are free from virus or other diseases.

The first generation runner plants from these virus indexed parent plants are then placed in our large screenhouses (pictured below). Again in chemically treated soil and under this extra fine mesh screen, a protection from disease-carrying insects and harmful soil organisms is substantially assured.

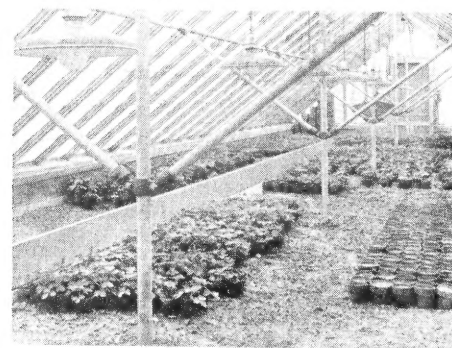

When their vigorous growth is completed here, the plants are transplanted in the fertile soil of our growing fields. The

soil here is also chemically treated before planting and during the growing season we spray the foliage of the plants often enough to make it next to impossible for insects to attack the plants or for disease to appear to any measurable degree. Growth obtained following this program is exceptionally vigorous and so far advanced from any regular method that plants are correctly referred to as a SUPER-STRAIN. This super-strain is passed on to our customers who receive the benefits in exceptionally heavy yields of highest quality berries WHICH WILL MAINTAIN VIGOR WITHOUT CONTINUED SPRAYING OR DUSTING THROUGHOUT THE NORMAL PRODUCTION PERIOD OF FRUITING BED. The quality of these plants is unsurpassable and our newer methods of shipping can get them to you in first-class condition. This is backed by our reputation which was gained from our efforts with the problems of our customers foremost in mind.

We are the largest growers of Strawberry plants in the country. We extend to you the service of our experienced personnel.

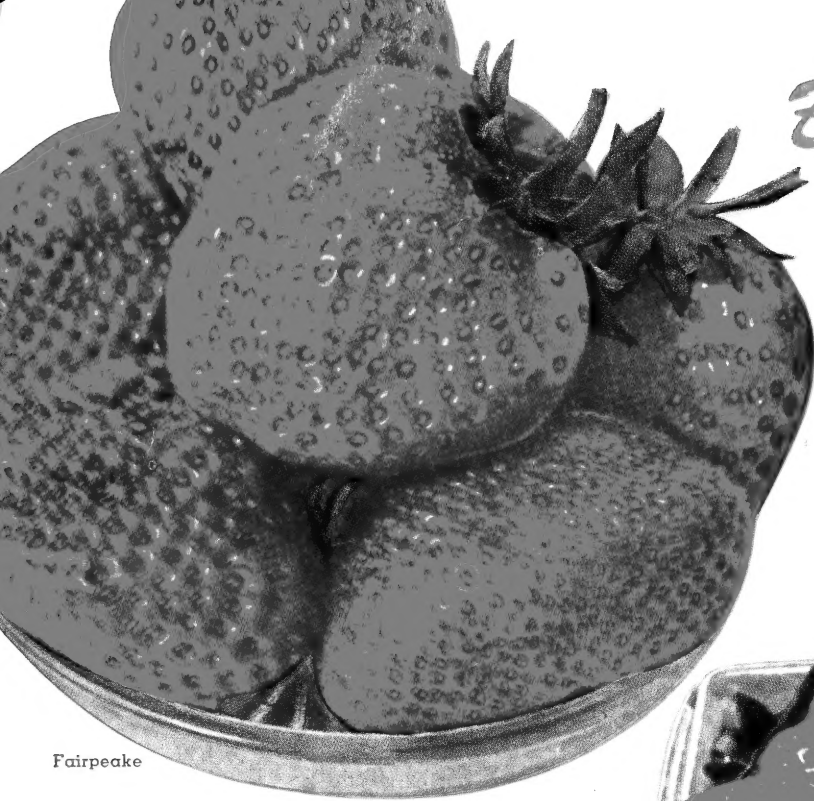

Norman Bunting is in charge of our Strawberry production, devoting his entire time and experience to this phase of the business.

Carl Marcus, formerly with the United States Department of Agriculture until two years ago, is now a full-time associate with us in the field of research. These experienced men are supervising our staff in a constant sincere effort to bring to you the finest Strawberry plants available.

Partial view of the interior of one of our greenhouses showing virus indexed and breeding of Strawberry plants.

Interior view of our screenhouse showing Strawberry plants growing profusely under protective plastic screen. A location where insect carriers of virus and other diseases are unable to enter. Note healthy growth.

Fairpeake

TEMPLE

An exceptionally vigorous variety with unusually tall plants. Produces large, smooth, uniform berries nearly as early as Blakemore. Introduced because of its resistance to disease. **Prices:** 25 for \$1.30; 50 for \$2.15; 100 for \$3.40; 250 for \$6.80; 500 for \$10.65; 1000 for \$17.00; 5000 for \$75.00.

Temple

Tennessee
Beauty

TENNESSEE BEAUTY

Very productive, midseason variety with exceptionally good shipping qualities and wonderful flavor. Has been planted more extensively each year and now is a leader and highly recommended by commercial planters as well as small gardeners. Our Tennessee Beauty is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.15; 50 for \$1.90; 100 for \$3.00; 250 for \$6.00; 500 for \$9.40; 1000 for \$15.00; 5000 for \$65.00.

Buntings' Productive For Commercial Growers

FAIRPEAKE

A Leading Late Variety

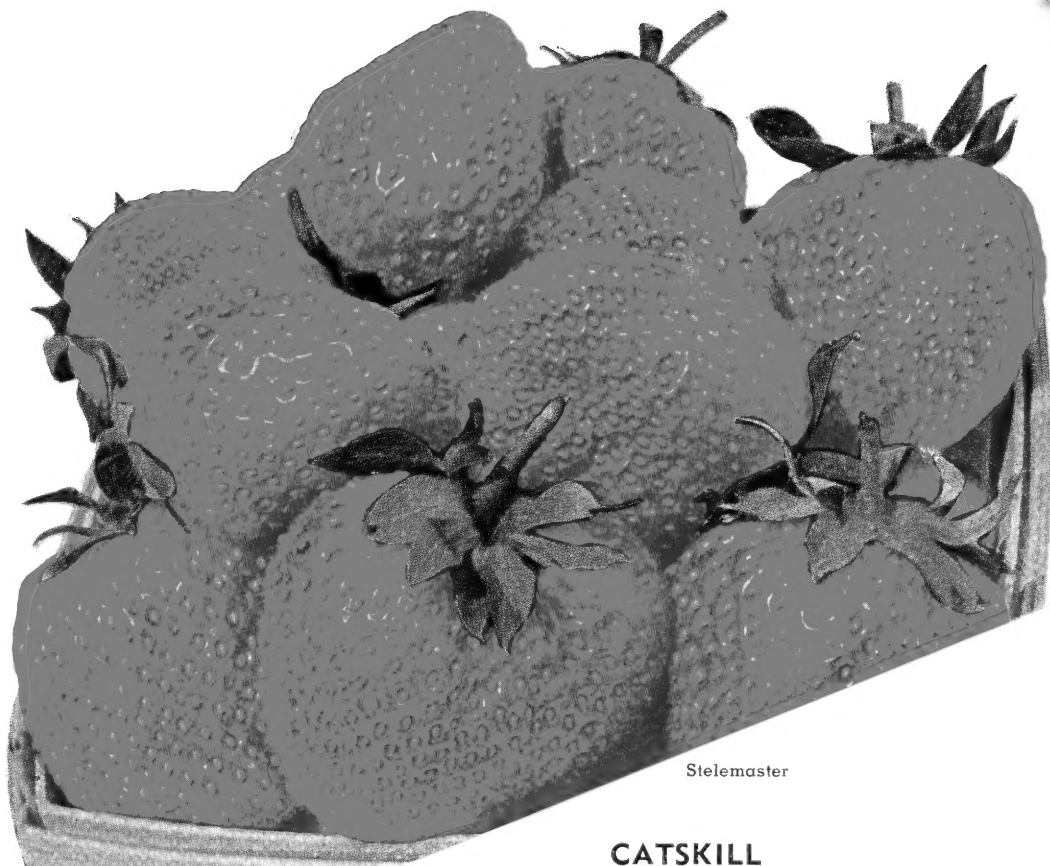

A cross between Chesapeake and Fairfax, this Strawberry retains the delicious flavor of Fairfax and is more productive than Chesapeake. A vigorous grower, this plant produces a quality berry of good size. The flesh is firm, juicy, and red to the center. Excellent for either the home gardener or commercial grower. **Prices:** 25 for \$1.30; 50 for \$2.15; 100 for \$3.40; 250 for \$6.80; 500 for \$10.65; 1000 for \$17.00; 5000 for \$75.00.

Strawberries

and Home Gardens

STELEMASTER

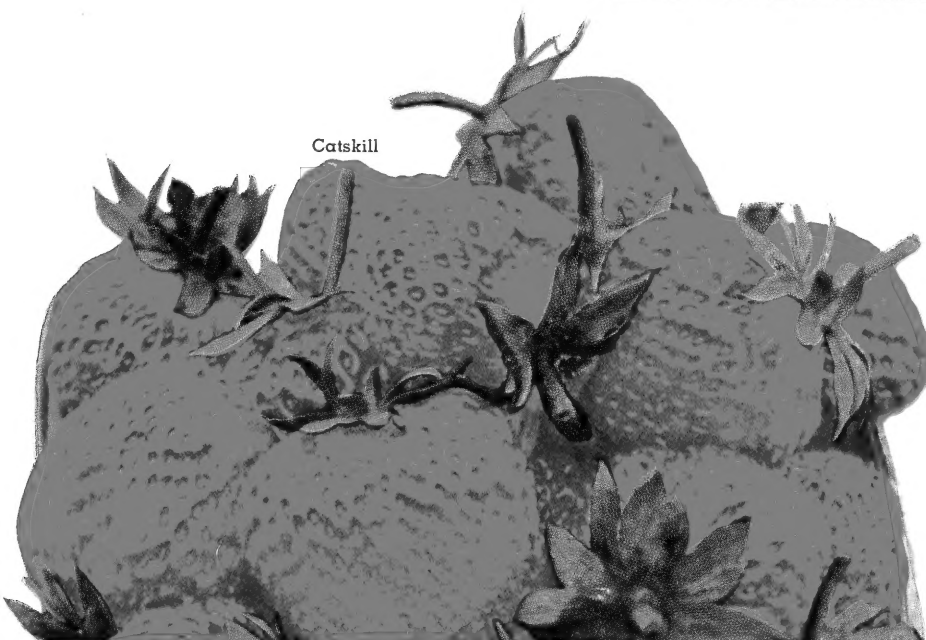

One of the latest introductions of the U.S.D.A., Beltsville, Md., because of its resistance to all races of red stele now known in the eastern United States. The champion of all in this respect. Ripens about the same time as Blakemore. Berries are uniform, smooth and of good size. Flesh is light red, juicy, and firm, with flavor mildly sub-acid. Plants are very vigorous and productive, also its resistance to disease will meet demands and develop its popularity. Our stock is a strain grown from the U.S.D.A. virus-free plants. **Prices:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.50; 500 for \$11.25; 1000 for \$18.00; 5000 for \$85.00.

Stelemaster

CATSKILL

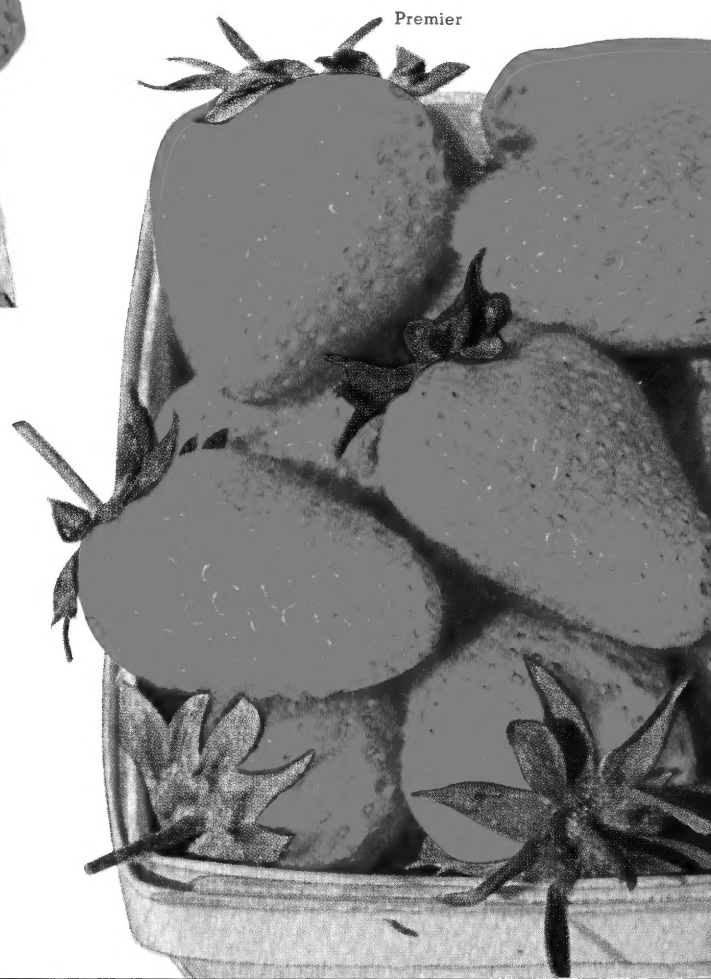

An outstanding midseason variety becoming more popular every year. Produces large, strong plants, makes an ideal fruiting bed. The berries are large in size, bright red color. Equals Premier in flavor and carries a bright green cap. Firm enough to arrive on the market in excellent condition. It is considered almost frost-proof, and can be depended upon to produce annually bumper crops of fine fruit. Our Catskill is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.30; 50 for \$2.20; 100 for \$3.50; 250 for \$6.85; 500 for \$10.95; 1000 for \$17.50; 5000 for \$77.50.

Catskill

PREMIER

This very popular early berry has stood the tests of many years. Fruit large and holds its size well throughout the ripening season. Foliage smooth, bright and clean. A good plant maker. One of the most extensively planted early varieties of Strawberries at this time. There are but very few varieties that have equalled Premier's production record. In flavor and quality it ranks with the best. Recommended for home use, local sales or commercial markets. Our Premier is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.25; 50 for \$2.05; 100 for \$3.30; 250 for \$6.60; 500 for \$10.30; 1000 for \$16.50; 5000 for \$72.50.

Premier

THERE IS A DIFFERENCE IN VIRUS-FREE STRAWBERRY PLANTS. Buntings' foundation planting stock is grown from plants started each year from our greenhouses and screenhouse. Following this procedure year after year, we maintain for our customers the highest possible degree of freedom from virus and other diseases. Unless growers set plants of this type, there is much less assurance of this substantial freedom from disease. Increase your chances for a more profitable crop by setting Buntings' quality Strawberry plants. **READ PAGE 3 CAREFULLY FOR COMPLETE INFORMATION.**

Popular Strawberries

FAIRFAX

Early. The quality berry. A favorite in quality, flavor and productivity. Originated and introduced with Dorsett, now widely known and planted. The berries are exceptionally large all through the fruiting season, and very firm. Plant Fairfax for its superb flavor, large size and universal demand. Our Fairfax is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.30; 50 for \$2.20; 100 for \$3.50; 250 for \$6.85; 500 for \$10.95; 1000 for \$17.50; 5000 for \$77.50.

RED RICH (Plant Pat. No. 993)

This berry has gained much popularity during the past few years. A cross between Fairfax and Wayzata. A sweet everbearing variety which is red all the way through.

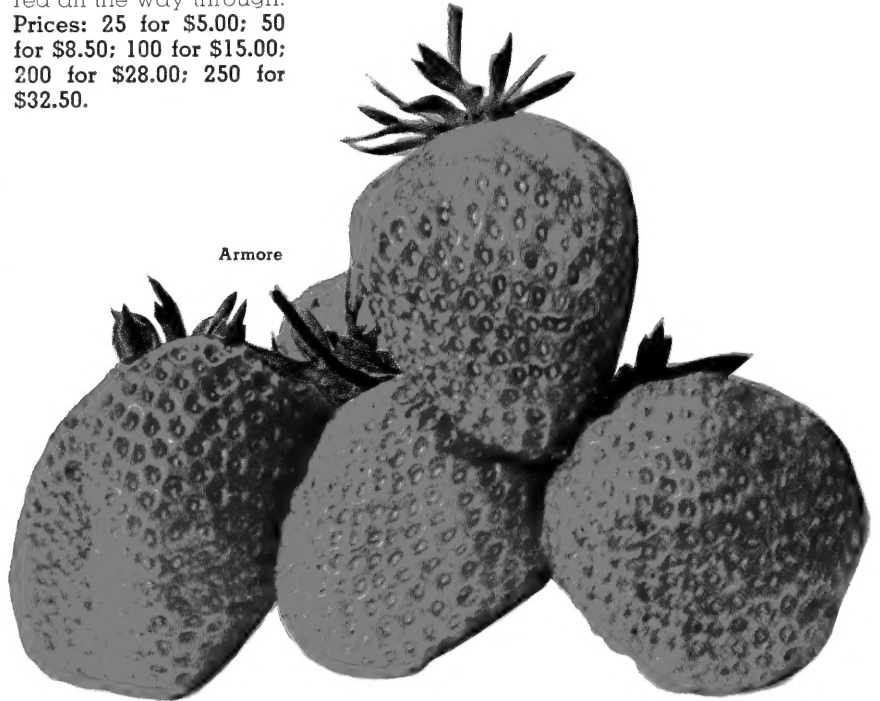

Prices: 25 for \$5.00; 50 for \$8.50; 100 for \$15.00; 200 for \$28.00; 250 for \$32.50.

Fairfax

ARMORE

Introduced by the Missouri Experimental Station, this variety has proved more productive than 60 others in actual tests. Berries are of good size, a beautiful red and of excellent flavor; a firm, good keeping, good shipping variety. Our Armore is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.20; 50 for \$2.00; 100 for \$3.20; 250 for \$6.40; 500 for \$10.00; 1000 for \$16.00; 5000 for \$70.00.

Armore

Empire

**Illustrations are Actual Size,
Photographed in Pint Cups**

EMPIRE

A new introduction of the New York State Experiment Station as a real challenger of Premier. Berries average extra large in size, very attractive and of excellent quality. Fruit is firm and holds its appearance well, making an excellent shipping berry. Very vigorous grower; withstands adverse growing conditions. **Prices:** 25 for \$1.20; 50 for \$2.00; 100 for \$3.20; 250 for \$6.40; 500 for \$10.00; 1000 for \$16.00; 5000 for \$70.00.

• All Vigorous Growers

Buntings' Well Rooted Plants

Our Strawberry plants are grown in fertile soil on our farms where the soil is best adapted for their growth, developing a vigorous strain of plants that produce heavy crops of berries when planted in your garden. Another reason BUNTINGS' are leaders in the production of quality Strawberry plants.

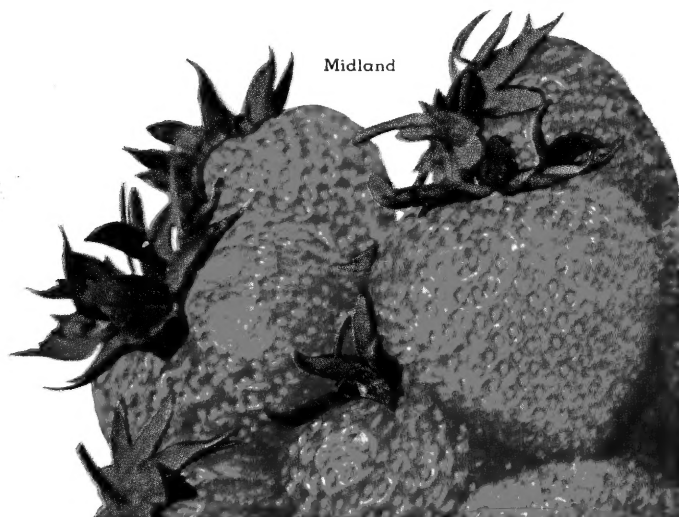

Sparkle

A vigorous grower and very productive. Berries are somewhat round in shape, of excellent quality and splendid for freezing. Our Sparkle is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.30; 50 for \$2.20; 100 for \$3.50; 250 for \$6.85; 500 for \$10.95; 1000 for \$17.50; 5000 for \$77.50.

Sparkle

Midland

MIDLAND

Beautiful, very large berries of deep, glossy red color. Very good dessert quality, mildly sub-acid. These qualities make Midland a most attractive frozen product with that fresh-off-the-vine goodness. Our Midland is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$85.00.

Red Crop

Excellent quality, firm large berries. Plants make a vigorous growth and have the stamina to withstand adverse conditions. Produces a good yield of excellent quality berries. **Prices:** 25 for \$1.20; 50 for \$2.00; 100 for \$3.20; 250 for \$6.40; 500 for \$10.00; 1000 for \$16.00; 5000 for \$70.00.

Mastodon

THE GREAT MASTODON

Has been a leader among the everbearing varieties for many years. Makes strong, robust plants. Berries are large and have good flavor. Plant in good fertile soil and you will be delighted with this long-time favorite. Its spring crop compares favorably with that of other June-bearing sorts. **Prices:** 25 for \$2.35; 50 for \$3.90; 100 for \$6.20; 250 for \$12.40; 500 for \$19.40; 1000 for \$31.00; 5000 for \$135.00.

GEM

One of the leading everbearing varieties. Bright, attractive berries of good size, uniform in shape and pleasing flavor. **Prices:** 25 for \$2.20; 50 for \$3.65; 100 for \$5.80; 250 for \$11.60; 500 for \$18.15; 1000 for \$29.00; 5000 for \$100.00.

ALBRITTON. A new introduction of the North Carolina Experiment Station. Plants are very productive in tests from Maryland south and it has become very popular in this area. Berries are large with rich red color and ripen early. Our Albritton is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.20; 50 for \$2.00; 100 for \$3.20; 250 for \$6.40; 500 for \$10.00; 1000 for \$16.00; 5000 for \$70.00.

AMBROSIA LATE. A very good late variety. The berries are very large, semi-pointed, rich sparkling bright red with large green caps. The flavor is delicious. Growth is very rigid and vigorous. Berries develop in the shade of the leaves and off the ground which assures clean fruit. **Prices:** 25 for \$1.15; 50 for \$1.90; 100 for \$3.00; 250 for \$6.00; 500 for \$9.40; 1000 for \$15.00; 5000 for \$65.00.

BELLMAR. A U.S.D.A. introduction of outstanding character. A cross between Premier and Missionary. Under our new method of growing, plants are more vigorous and yields are greater. Its attractive color and good flavor will delight you. Our Bellmar is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.20; 50 for \$2.00; 100 for \$3.20; 250 for \$6.40; 500 for \$10.00; 1000 for \$16.00; 5000 for \$70.00.

BIG JOE. Ripens about three days before Fairpeake. Fruit is firm and of large size, good color and of delicious flavor; no green tips. Plants are strong growers and thrive on any soil that will produce Strawberries. **Prices:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$85.00.

THERE IS A DIFFERENCE IN VIRUS-FREE STRAWBERRY PLANTS. Buntings' foundation planting stock is grown from plants started each year from our greenhouses and screenhouse. Following this procedure year after year, we maintain for our customers the highest possible degree of freedom from virus and other diseases. Unless growers set plants of this type, there is much less assurance of this substantial freedom from disease. Increase your chances for a more profitable crop by setting Buntings' quality Strawberry plants. **READ PAGE 3 CAREFULLY FOR COMPLETE INFORMATION.**

Gem

BLAKEMORE

The Ideal Shipping Berry

A healthy, vigorous growing variety, that yields big crops of berries. Will stand two or three days without over-ripening. Foliage is healthy and stands up well during drought. Fruit is firm, of good color and unexcelled as a long-distance shipping berry. Ranks high in productiveness. To get all that you are entitled to from Blakemore, do not allow them to mat too thickly in the rows during the growing season. Our Blakemore is a strain grown from U.S.D.A. virus-free plants. **Prices:** 25 for \$1.15; 50 for \$1.90; 100 for \$3.00; 250 for \$6.00; 500 for \$9.40; 1000 for \$14.50; 5000 for \$65.00.

Blakemore

SUPERFECTION

This exceptionally large, round, red to the center berry, has a sweet, pleasing, mellow flavor and is delicious to eat fresh, canned, preserved in jams and jellies, as well as fresh frozen. Bears an abundance of large berries throughout the late summer and fall season. We believe it is the best ever-

bearer ever introduced, and highly recommend you plant them. **Prices:** 25 for \$2.20; 50 for \$3.60; 100 for \$5.80; 250 for \$11.60; 500 for \$18.10; 1000 for \$29.00; 5000 for \$125.00.

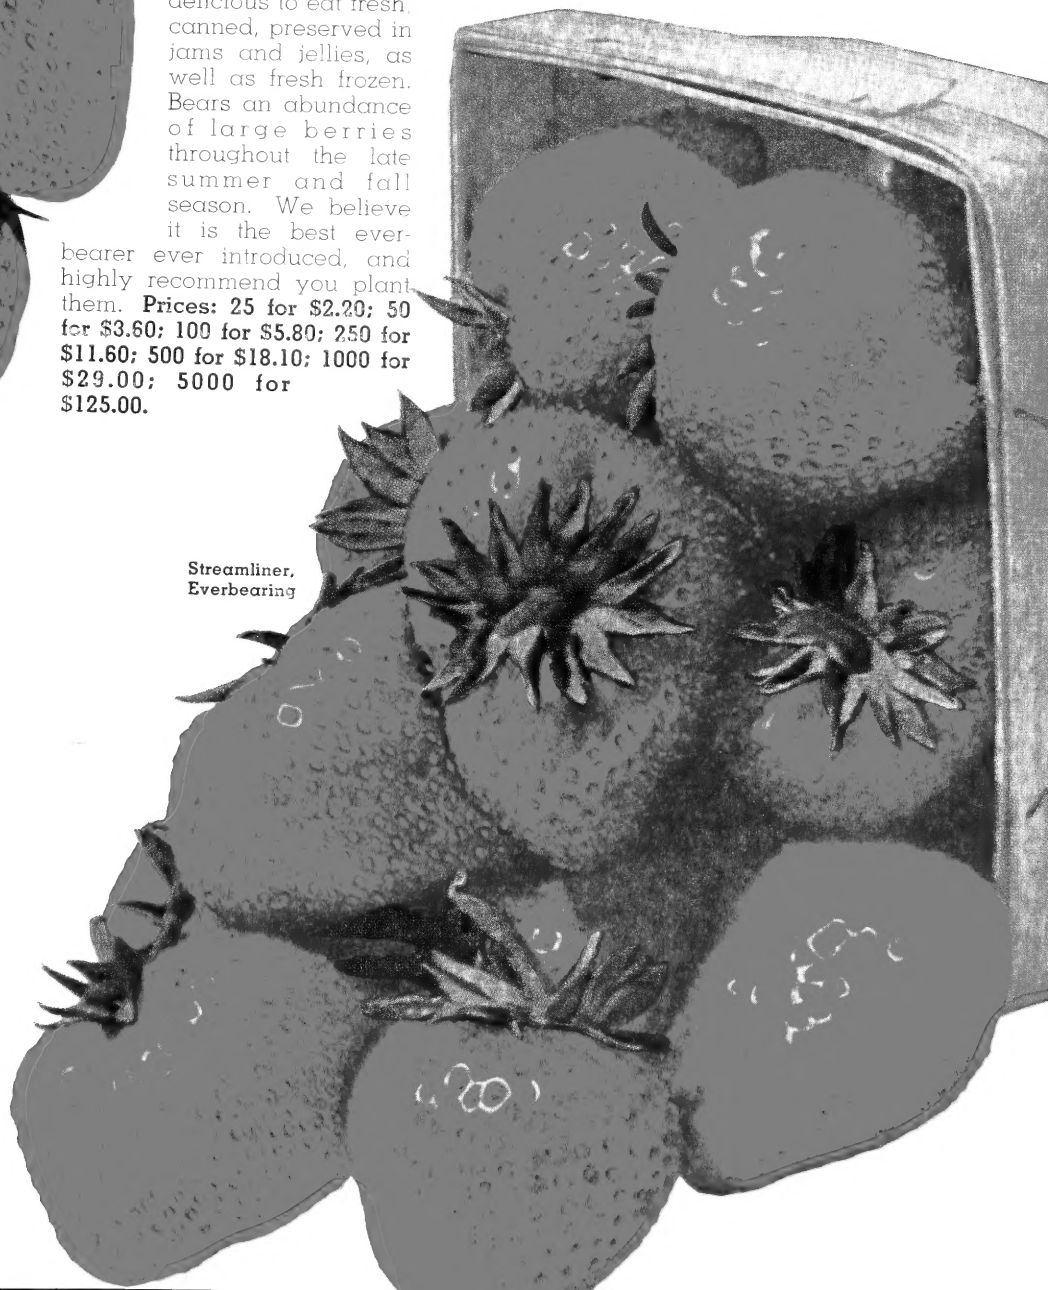

Illustrations are actual size, photographed in pint cups.

Superfection

STREAMLINER

Generally conceded to be one of the best everbearing Strawberries offered today. Has pleasing flavor, rich red color throughout; excellent for eating fresh, canning or freezing. **Prices:** 25 for \$2.35; 50 for \$3.90; 100 for \$5.80; 250 for \$12.40; 500 for \$19.40; 1000 for \$31.00; 5000 for \$105.00.

Streamliner,
Everbearing

POCAHONTAS

A new introduction of the U.S.D.A. A large, deep vivid red berry is produced from the exceptionally vigorous plants. Highly flavored. A leader due to its strength and productiveness. Our Pocahontas is a strain grown from U.S.D.A. virus-free plants. **Prices: 25 for \$1.30; 50 for \$2.15; 100 for \$3.40; 250 for \$6.80; 500 for \$10.65; 1000 for \$17.00; 5000 for \$80.00.**

Growing Strawberries Profitably

Setting Plants

Clip the roots if they can't be planted without doubling. The plant should be set with the crown about even with the soil after it has been thoroughly firmed around the plant.

Type of Soil

Select a plot springy in nature but well drained and free of vegetation. Moisture is essential. The land which you contemplate setting to Strawberries should be kept as free from vegetation as possible during the previous year. If the land has been lying idle, plow late in summer before the weeds and grass develop seed to maturity. Heavy crops of Cow Peas, Soy Beans, etc., if plowed under in late summer while green increase the humus and fertility of the soil, making it loose and porous; therefore, more retentive of moisture.

Soil Preparation and Fertilization

Prepare soil same as for truck or garden crops. Lay out rows, usually 3½ to 4 feet apart; set plants about 15 to 18 inches apart in the rows. Do not use commercial fertilizer at the roots. If soil is fertile we do not recommend using any type of fertilizer when planting. After the plants have been set in the row, a light application of fertilizer may be applied around the plant and worked into the soil with a hoe. Do not allow the fertilizer to fall on the leaves of the plant. During the growing season additional applications of fertilizer may be applied if the soil is not reasonably fertile.

The following spring after plants have been set, during the months of February or March, apply a good grade of commercial fertilizer carrying an analysis of 5 per cent ammonia, 6 to 8 per cent phosphoric acid and 10 per cent potash, broadcast on the row of the plants, at the rate of 15 to 20 pounds per hundred yards of row space.

Cultivation

Keep Rows Free of Vegetation.

As soon as the plants are set in the spring, cultivation should begin, and should be continued whenever weeds start or a crust forms. Frequent shallow cultivation will make it unnecessary to do much hand hoeing or hand weeding.

Mulching

After the first freeze during fall months, wheat or rye straw may be applied over the rows of plants for winter protection. Early in the spring, before growth starts, it should be removed from the bed of plants and placed between the rows to retain moisture and keep berries clean.

Planting Time

Northern States—April and May.

Central States—March, April and May.

Southern States—February, March and April.

Plants referred to as "virus-free" in this catalog have been field-grown by us from virus-free foundation stock furnished by U.S.D.A., Beltsville, Md. Our field-grown stock has been dusted with parathion to control aphids which transmit the virus disease. It has also been grown at considerable distance from any other Strawberry plants. Since virus does not produce clear-cut symptoms in most Strawberry varieties but simply weaken and devalue the plants, no guarantee can be made that these plants are 100% free of virus. Because of the measures that we have used to protect these plants from virus infection, we believe them to be substantially virus-free.

Blueberries

See Front Cover

There is a big market for these delicious Blueberries; they make money from any type of acid soil. Grow in clusters and produce from 5000 to 8000 pints per acre. The berries are easy to harvest and the plants thornless. The plants are very hardy and will last a lifetime, giving bigger yields every year until maturity.

The fruit is very delicious eaten directly from the plant, also can be enjoyed from your freezer. You will certainly experience much pleasure by growing your own fresh fruit from our strong plants.

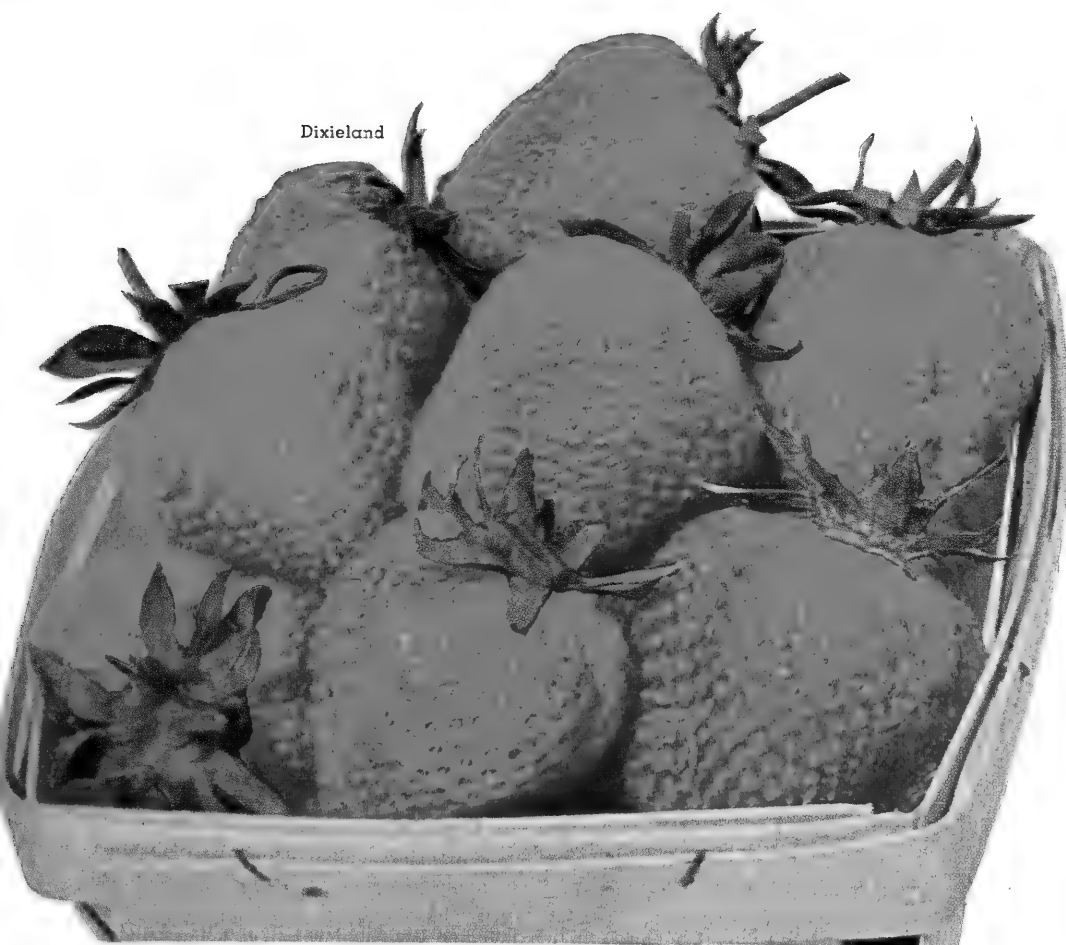

Blueberries require an acid soil for best results, normally a pH of under 5.5. If your soil is sweet, use peat moss around the plants. Write us and ask for our free booklet entitled "Cultural Directions for Cultivated Blueberries". Once the right conditions are provided, very little care is needed.

Your choice of **June** (early), **Rancocas** (midseason) and **Jersey** (late). Use two or more varieties to cross-pollinize for best results.

BLUEBERRY PRICES (Per Plant):

Dixieland

A new introduction of the North Carolina Agricultural Experiment Station. The vigorous growing plants have a strong color and produce berries considerably larger and much firmer than Blakemore. Berries are very uniform in shape and ripen about the same time as Blakemore. Truly an excellent shipper and we believe the best to date for freezing. Our Dixieland is a strain of the U.S.D.A. virus-free plants. We take pride in recommending this berry to you. **Prices:** 25 for \$1.35; 50 for \$2.25; 100 for \$3.60; 250 for \$7.20; 500 for \$11.25; 1000 for \$18.00; 5000 for \$85.00.

THERE IS A DIFFERENCE IN VIRUS-FREE STRAWBERRY PLANTS. Buntings' foundation planting stock is grown from plants started each year from our greenhouses and screenhouse. Following this procedure year after year, we maintain for our customers the highest possible degree of freedom from virus and other diseases. Unless growers set plants of this type, there is much less assurance of this substantial freedom from disease. Increase your chances for a more profitable crop by setting Buntings' quality Strawberry plants. **READ PAGE 3 CAREFULLY FOR COMPLETE INFORMATION.**

Bunting's Leading Raspberries

You can make money with Raspberries because their delicate flavor won't keep, and the berries can't be shipped long distances. This gives you all the local market, with little competition from outside—and a chance to sell on a quality basis alone.

(Red.) Midseason. This variety was introduced by the New York Fruit Testing Association. Plant vigorous grower, branching more than most red varieties. Hardy, very productive. Fruit very large, firm. Does not crumble. Precedes Latham a few days in ripening. An excellent shipper and keeper.

PRICES

(All varieties except September Everbearing)

1-year, No. 1—5 for \$1.70; 10 for \$2.55; 25 for \$4.70; 100 for \$14.00; 250 for \$30.30; 500 for \$48.85; 1000 for \$85.00.

TAYLOR

This red Raspberry is considered to be the best of them all for New York and the northern states. Plants are vigorous, hardy, productive, tall growing and increase rapidly. Sturdy canes hold the berries well off the ground. The berries, bright attractive red, are thick-fleshed, firm and of excellent quality.

INDIAN SUMMER

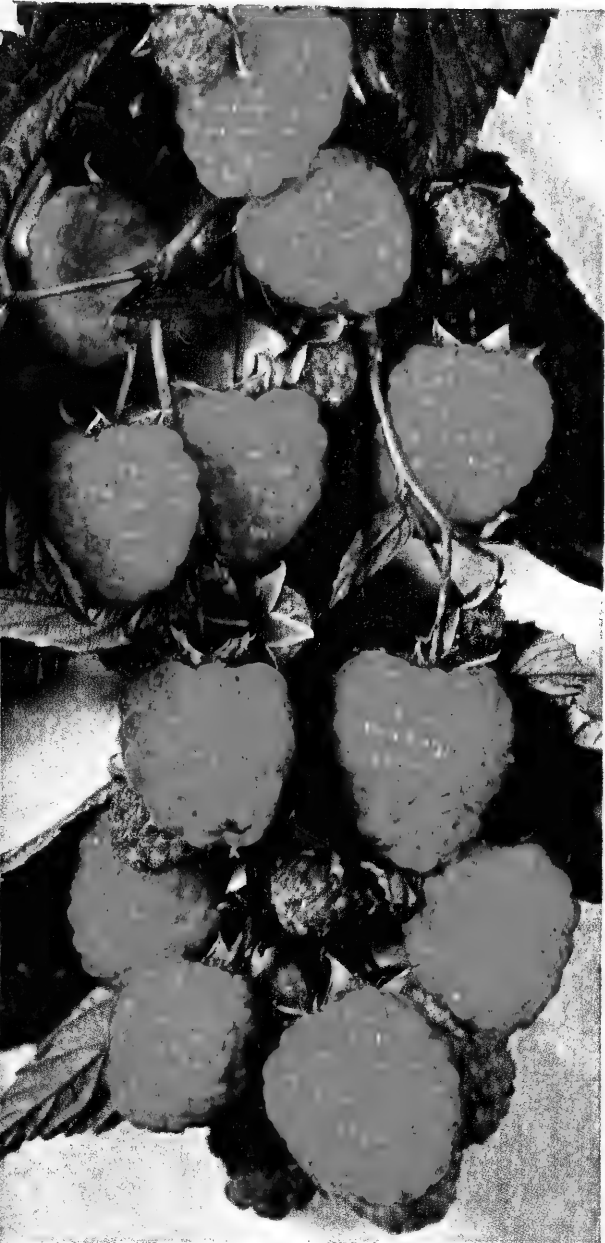

Giant Red Everbearer

The best everbearing red Raspberry. Earliest to ripen; bears a full crop in June and an immense crop in the fall. A sensation because of its size, flavor and unusual beauty. Wonderful keeping qualities. Berries are glossy red, conical in shape and of extra large size. The greatest all-purpose Raspberry. The fall crops, when Raspberries are scarce and therefore highly prized, are heavier than the earlier ones.

CUMBERLAND

The Black Raspberry

In Blacks—your best bet. Produces large, jet-black fruit, firm and of excellent quality, sweet and mild, ripening in midseason and continuing for two weeks. Extensively planted for commercial purposes and for table use. Fruit is large, plump and juicy, with a true "Blackcap flavor" all its own. Because of its extremely firm texture, Cumberland is an ideal shipper. No Black Raspberry has ever been grown as extensively as Cumberland, nor attained its great popularity in all Raspberry producing sections of the country.

Indian Summer

Cumberland—
the best bet in Blacks.

are Rapid Vigorous Growers

SUNRISE

The earliest red Raspberry of them all. The bright red, round berries are juicy, have a delicious flavor and aroma, fine, firm texture. It combines the necessary characteristics of a successful berry; earliness and high quality of fruit, also hardiness and resistance to disease. Excellent for home use.

the earliest
of them all.

SEPTEMBER EVERBEARING

A new everbearing red Raspberry, a cross between Marcy and Ranere, introduced by the New York State Fruit Testing Association. Berries are of good size, high quality, round, bright red, show no crumbling tendencies and cling securely to the bushes. Its spring crop is about five days earlier than Newburgh, and the fall crop matures before frost. Plants are vigorous and increase rapidly. Ideal for either home or commercial gardens.

Prices: 1-yr., No. 1—10 for \$3.85; 25 for \$7.50; 100 for \$22.50.

LATHAM

The productiveness and resistance to disease of this popular midseason to late red Raspberry has attracted the attention of growers everywhere, and, in the Northwest, the great berry growing section of America, growers are enthusiastically planting it heavily each year. Extremely hardy, cold weather seems to have no effect on its outstanding bearing ability. Plants are vigorous growers, highly resistant to insects, mosaic free and start ripening in midseason and continue an unbelievably long time. Berries are extra large, beautifully colored rich dark red, and good flavored.

How to Grow Raspberries Successfully

CULTURAL DIRECTIONS — RED RASPBERRIES

Two methods of culture are commonly used, the hill system and the solid row system. Under the first system plants are usually set five feet apart each way while under the second system they are set three feet apart in rows seven feet apart. Place plants in hole or furrow, spread roots, fill to ground level, and press soil firmly. After planting, cut all canes back to 2 or 3 inches above the ground level. The following spring, before growth starts, prune canes back to a length of about three feet. After fruiting season, cut out all fruiting canes and burn them to destroy any disease or insects. Future years' growth should be confined to six or eight strong canes to each plant, following same procedure year after year.

CULTURAL DIRECTIONS — BLACK RASPBERRIES

Two methods of culture are commonly used, the hill system and the solid row system. Under the first system plants are usually set six feet apart each way while under the second system they are set four feet apart in rows seven feet apart. Place plants in hole or furrow, spread roots, fill to ground level, and press soil firmly. After planting cut all canes back to two or three inches above the ground level. When new growth starts and has attained a height of 18 to 24 inches, it is best to pinch the tips of the canes which causes each cane to throw off branches and grow upright. All lateral branches should be cut back severely, leaving from 6 to 8 inches of cane. Weak, spindling canes are cut out entirely. The following spring, before growth starts, prune canes back to a length of about 3 feet. Cultivate Raspberries shallow during the entire season but do not continue beyond picking season, as late growth will not mature sufficiently to withstand the winter.

A booklet containing complete planting and cultural directions for all trees and plants offered in this catalog will be included free with each order upon request.

EBONY KING BLACKBERRIES

A New Upright Blackberry

Here's good news for Blackberry lovers. This grand new variety will produce an abundance of fruit. Most of the old Blackberry varieties have become sterile; that is, they will produce blooms which fail to develop into fruit. The new EBONY KING has been tested for several years, and is a sure-bearing variety. It is very hardy, having withstood temperatures of 22 degrees below zero. The berries are very sweet, and have the wonderful delicious Blackberry flavor. Bears annually and early in the season before hot weather sets in. Self-pollenizing. Supply of this variety is still limited, so order early. **Prices: Heavy, 1-yr., No. 1 plants, 10 for \$3.85; 25 for \$7.50; 100 for \$22.50.**

FIELD CULTURE — BLACKBERRIES AND DEWBERRIES

Plant in rows 7 feet apart with plants set 4 feet apart in the rows (1,555 plants to set an acre at given distances).

Plow a furrow about 5 to 6 inches deep or dig holes 6 inches deep and 6 inches square. Spread roots, fill hole with soil; firm well. Cut stock after planting approximately 2 inches above ground level. Let them grow and the following spring cut the new growth back one-third, leaving two-thirds of the season's growth for production of berries. After fruiting cut all fruiting canes out and burn them. Cultivate occasionally and follow same procedure each year, allowing about 6 to 10 canes on each plant to stand for fruiting each season.

Dewberries

→ **LUCRETIA.** Extremely productive. The berries are extra large, black in color; flavor rich, sweet and delicious. Dewberries are of the Blackberry family, but produced on a trailing vine instead of an upright bush, and bear earlier in the summer. Lucretia berries are firm and of excellent quality. **Prices: No. 1 plants, 10 for \$1.85; 25 for \$3.35; 50 for \$5.75; 100 for \$9.90.**

Boysenberry

10 Plants for \$2.50

A cross between the California Loganberry, Raspberry and Blackberry. Just think of a berry that has a little of each of these fruits all in one giant, nearly seedless, beautiful wine colored berry, with a flavor that you will never forget.

Its size is unbelievable—two inches long is not unusual, three inches long not rare. Fifty of these plump, inch-thick marvels will fill a quart basket; a sight so remarkable people can't resist buying them! They are rare—they are unusual. The demand is so tremendous retailers can't get enough of them.

Buntings' hardy No. 1, strong-rooted plants bear big crops the second year. Do not miss planting some Boysenberries in your garden this year. **Prices: 3 for \$1.10; 6 for \$2.00; 10 for \$2.50; 25 for \$4.65; 100 for \$14.05; 250 for \$30.40; 500 for \$48.85; 1000 for \$85.00.**

A booklet containing complete planting and cultural directions for all trees and plants offered in this catalog will be included free with each order upon request.

The Blue-Blood of the
Asparagus World. Extra
heavy crowns, long fat roots, strong giant
size, green color.

Mary Washington

Originated by the U. S. Department of Agriculture, and has been considered the best variety of Asparagus grown. Commercial growers have been planting Mary Washington exclusively for years. Very strong grower, stock of giant size, green color, rich and tender. It is our opinion that the two principal good points of this variety are, that it is rust-resistant, also a stronger grower than any of the old standards of Asparagus. For this reason we have discontinued growing such varieties as Conover's Colossal, Barr's Mammoth, Giant Argenteuil, etc.

PRICES OF MARY WASHINGTON ASPARAGUS:

	25	50	100	250	1000	5000
Super Size, Extra Heavy ..	\$4.10	\$6.85	\$11.00	\$22.00	\$55.00	\$265.00
2-yr., No. 1 grade	2.25	3.75	6.00	12.00	30.00	145.00
1-yr., No. 1 grade	1.50	2.50	4.00	8.00	20.00	95.00

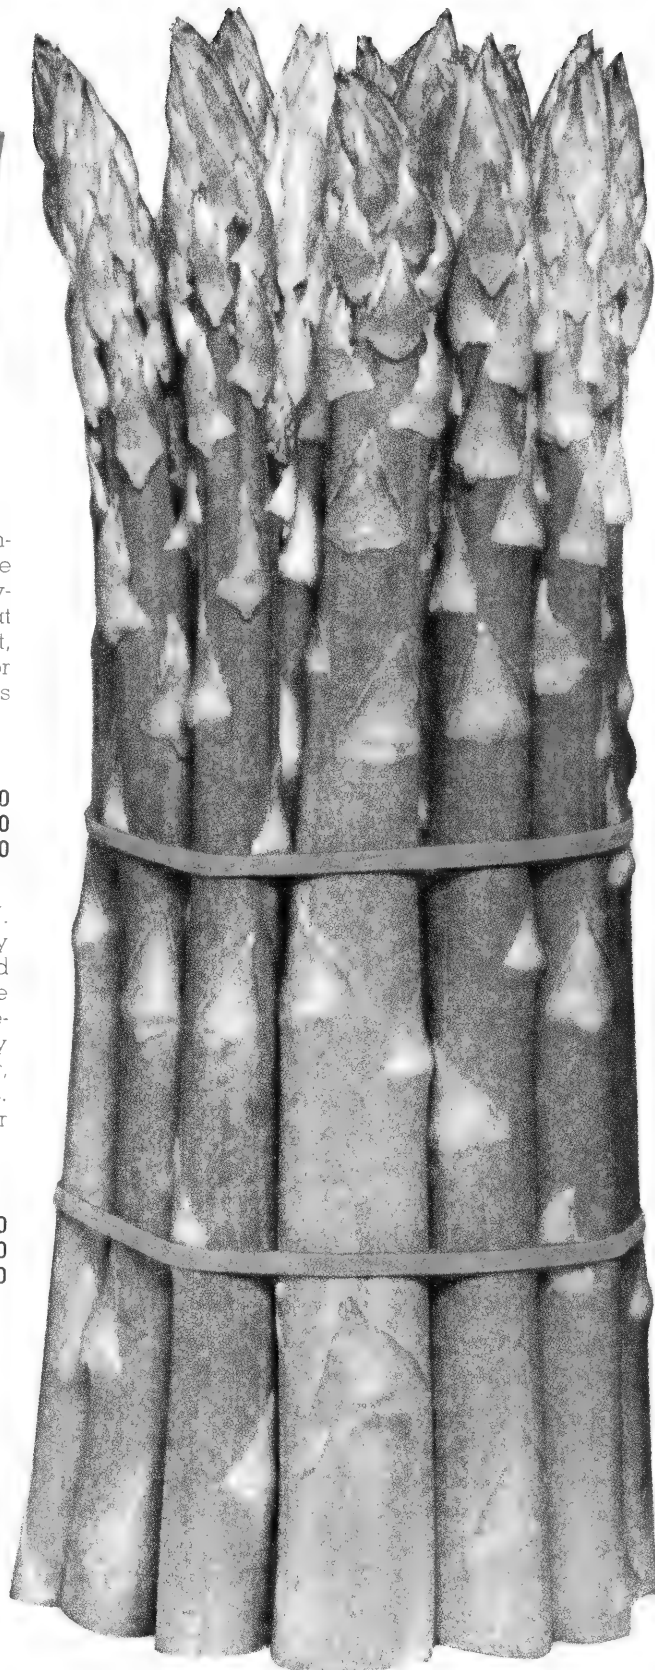

ROBERTS' STRAIN MARY WASHINGTON

This new strain of Mary Washington (selected and developed by Mr. J. L. Roberts) is now being planted almost exclusively here in the East by commercial growers and canneries. Roberts' strain has been developed from original Mary Washington by selection, to produce a new type possessing very large spears, heavy yields and great vigor, which prevents the ravages of rust. For several years our supply was sold early to large nearby planters. Our production has been increased, however, and we have reserved a part of our stock for our mail order customers. We recommend that you order early, and we will reserve your plants for you until shipping time.

PRICES OF ROBERTS' STRAIN MARY WASHINGTON:

	25	50	100	250	1000
Super Size, Extra Heavy	\$4.50	\$7.50	\$12.00	\$24.00	\$60.00
2-yr., No. 1 grade	2.60	4.35	7.00	14.00	35.00
1-yr., No. 1 grade	1.85	3.10	5.00	10.00	25.00

We are the largest growers of Asparagus plants in America. The seed from which our plants are grown is selected from a pedigreed field; it is hand-picked from the sturdiest stalks in the field, assuring you the best strain of Asparagus possible when you buy Buntings' plants.

RHUBARB or Pieplant

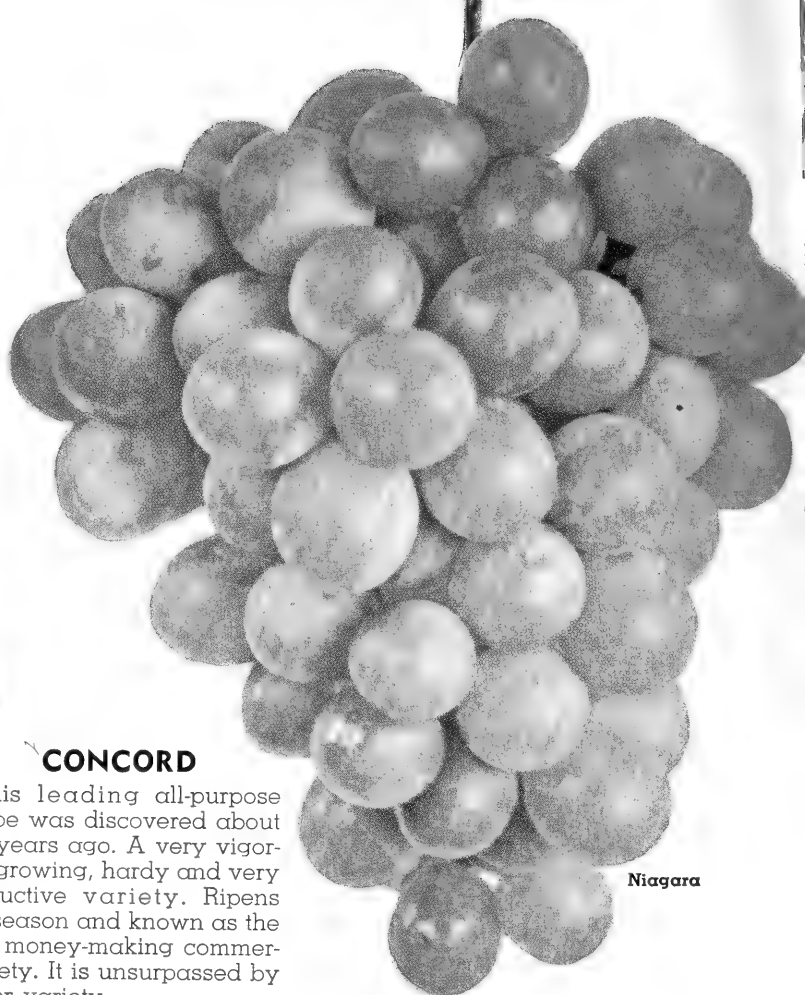

MACDONALD RHUBARB. You'll want some of this red, sweet Rhubarb. The new seedless variety, grown from divisions. Outyields and takes less sugar than Myatt's Linnaeus. Mildly acid, bears stalks up to 2 feet tall, red all the way down. Prices: No. 1 divisions, \$1.00 each; 3 for \$2.75.

MYATT'S LINNAEUS RHUBARB. Early, large, tender and good quality. Prices: 2-yr., No. 1 plants, 30c each; 3 for 85c; 10 for \$2.50.

Delaware Grown GRAPE VINES

NIAGARA

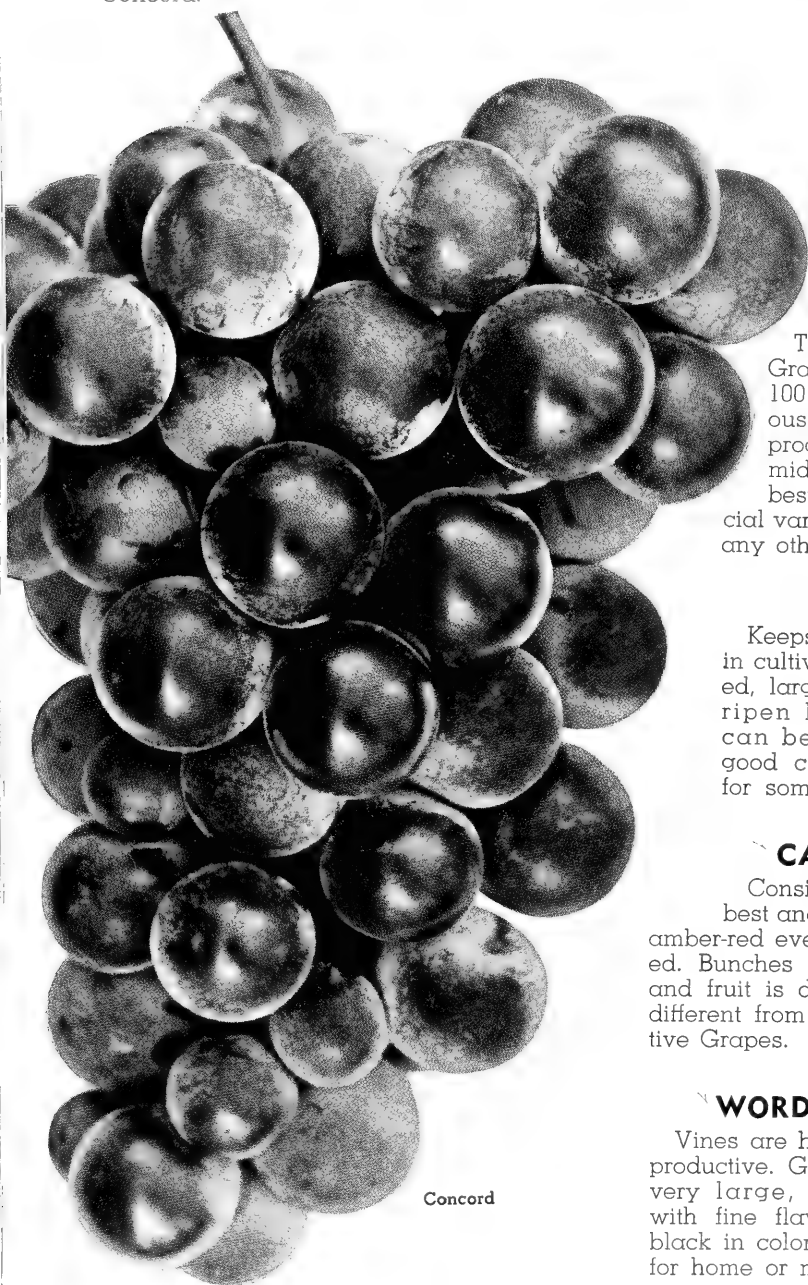

A quality white Grape; does not crack easily. The fruit cannot be surpassed in beauty. The worthy Queen of King Concord.

Niagara

CONCORD

This leading all-purpose Grape was discovered about 100 years ago. A very vigorous growing, hardy and very productive variety. Ripens midseason and known as the best money-making commercial variety. It is unsurpassed by any other variety.

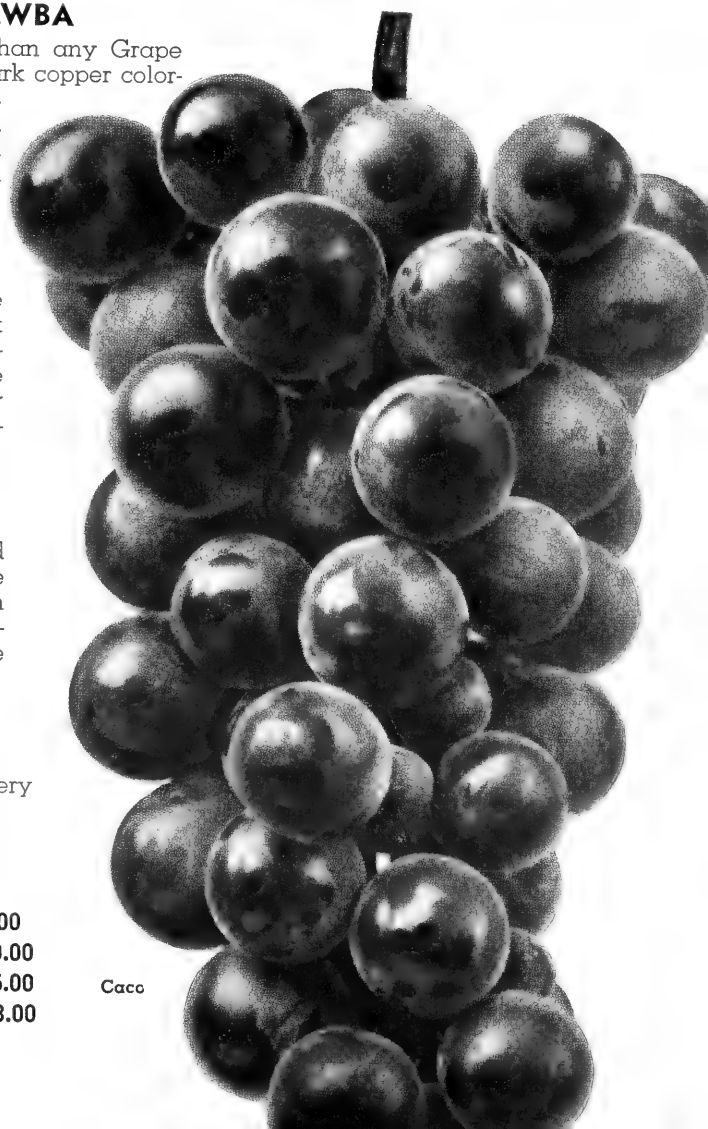

Concord

CATAWBA

Keeps better than any Grape in cultivation. Dark copper colored, large berries ripen late and can be kept in good condition for some time.

CACO

Considered the best and hardiest amber-red ever produced. Bunches are large and fruit is deliciously different from most native Grapes.

Caco

WORDEN

Vines are hardy and productive. Grapes are very large, thin skin with fine flavor; blue-black in color and fine for home or market.

FREDONIA

Black with heavy bloom, clusters about medium, berry is large, very early. This variety is comparatively new and very promising.

PRICES, ALL VARIETIES OF GRAPES:

DWARF FRUIT TREES

Take Little Space
to Produce Big Delicious Fruit

DWARF APPLES

These little trees can be planted 15 to 18 feet apart, and are only 12 to 15 feet high at maturity. Most varieties start producing fruit first or second year after planting, and fruit is as large or larger than that from standard trees. Plant two or more varieties for pollination.

Varieties: Grimes Golden, McIntosh, Red Stayman, Lodi, Red Delicious.

Prices: 2-yr., 3-4 ft., \$3.50 each; 3 for \$9.75.

DWARF PEARS

These attractive small trees require very little space, produce big delicious fruit, and often bear the year after planting. Plant two varieties for cross-pollination.

Varieties available: Bartlett, Clapp's Favorite.

Prices: 2-yr., 3-4 ft., \$3.50 each; 3 for \$9.75.

A Fruitful Decorative Ornamental Tree for the Garden **New Red-Leaved PEACH**

- **Delicious Peaches**
- **Red Foliage**
- **Colorful Pink Blossoms**

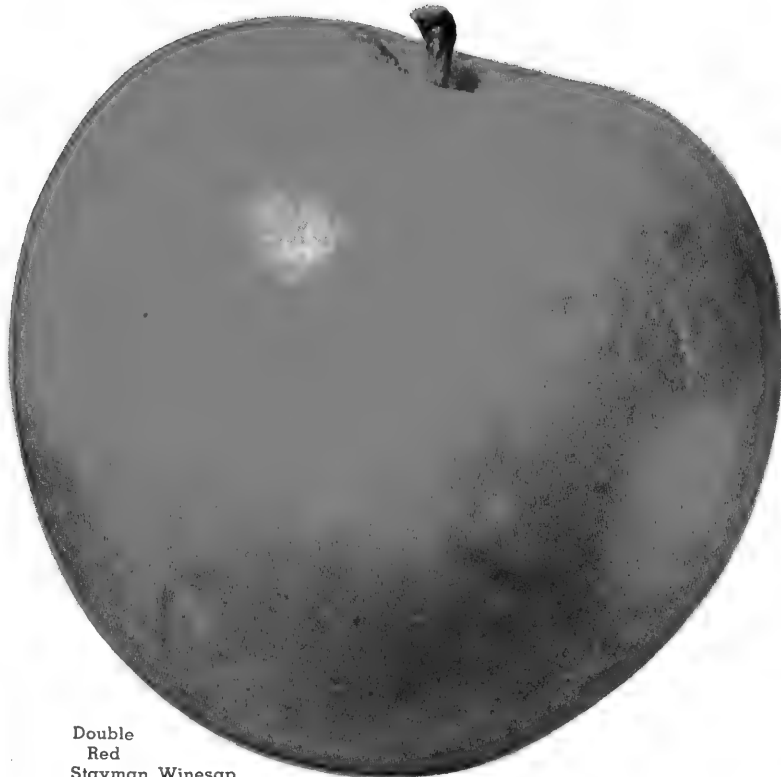

A dual-purpose tree—beautiful as an ornamental, prized for its fruit.

Foliage is bright red early in the spring, gradually dulling to a deep maroon toward fall. Its deep pinkish red blossoms in early spring create an exquisite effect, adding a touch of color to your landscape when it is most appreciated.

Our new Red-Leaf Peach produces a full crop of round, inch-and-a-half diameter Peaches; excellent for pickling. Fruit has an all-over red coloring; flesh is white with delicious flavor. **Price:** 3 to 4 ft., \$1.65 each.

A Selection of

Double
Red
Stayman Winesap

DOUBLE RED STAYMAN WINESAP

Carries at least double the color of the original strain of Stayman Winesap, otherwise exactly the same growth, hardiness, etc. We have discontinued propagating in our nurseries, also growing in our orchards, the regular variety of Stayman's Winesap, in view of the fact that we get the same quality in Double Red Stayman with double the color which sells the fruit for more money.

WILLIAMS EARLY RED

Among the earliest to ripen, and the largest of all early Apples. The trees come into bearing when quite young, producing freely and steadily. The Apple is large, with tender, crisp, white flesh, juicy and slightly tart. This big red Apple hits the market at a time when people are hungry for fresh fruit. Recommended for both home use and commercial markets.

LODI (Improved Yellow Transparent)

Originated by the New York State Experiment Station. After being tested commercially over quite a large area, it is now rapidly gaining popularity. A summer Apple ripening about the same time as regular Transparent; however, much larger and more firm than Transparent. Fruit good size, skin clear white to pale yellow in color. Flavor very good. An excellent cooking Apple. Tree a very strong grower.

ALL RED DELICIOUS

This improved new Red Delicious colors a very rich red three or four days in advance of any other strain of Delicious Apples. It is not only a commercial Apple, but is every bit as well adapted to home gardens. A superior, large, uniform Apple, rich in flavor, with a characteristic five-knob appearance that makes it attractive in every market.

BALDWIN

For many years Baldwin has been a favorite with commercial orchardists for their northern markets. Highly regarded as an eating and cooking Apple, having a flavor all its own. A heavy yielder and an excellent shipper. Fruit is large, bright red, crisp, juicy and rich.

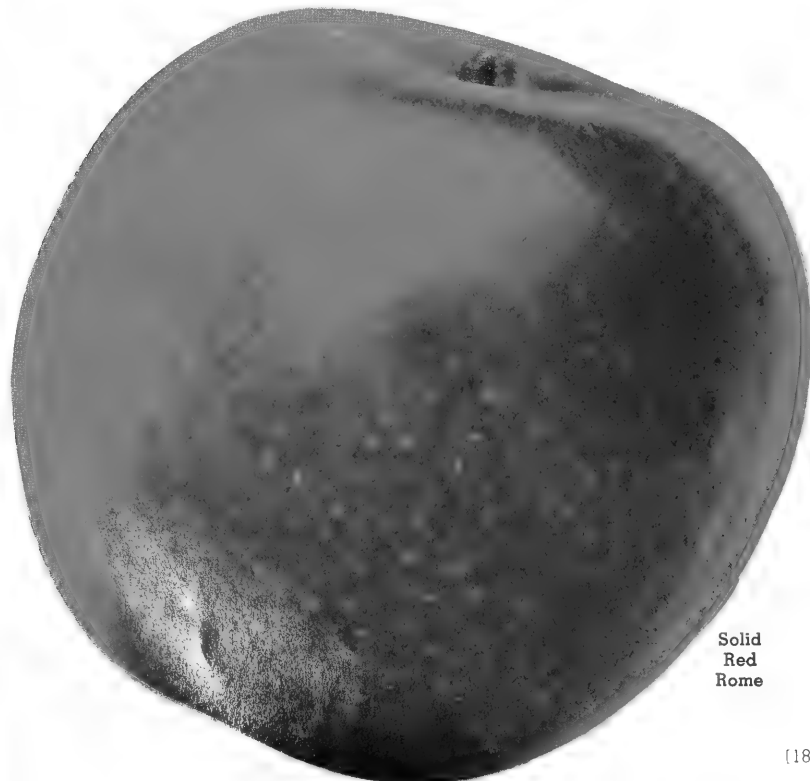

SOLID RED ROME

A brilliant, solid red that produces over 50 per cent more extra fancy Apples for color grade than common Rome Beauty. A beautiful Apple, identical in quality, productiveness and other characteristics with the regular Rome Beauty, except for a greatly superior color.

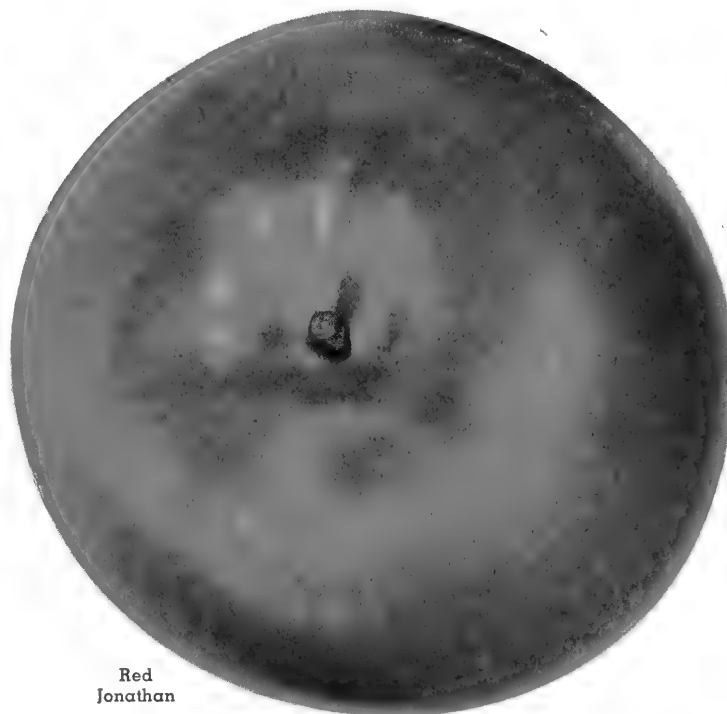

DOUBLE RED JONATHAN

Insure your profits from Jonathan by planting this new sport that will give you bright red colored fruit about two weeks earlier. Fruit medium to large, brilliant red, juicy, fine grain, tender and very highly flavored. Bears young; produces heavy crops every year.

Solid
Red
Rome

Red
Jonathan

World Beaters

✓ SOLID RED McINTOSH

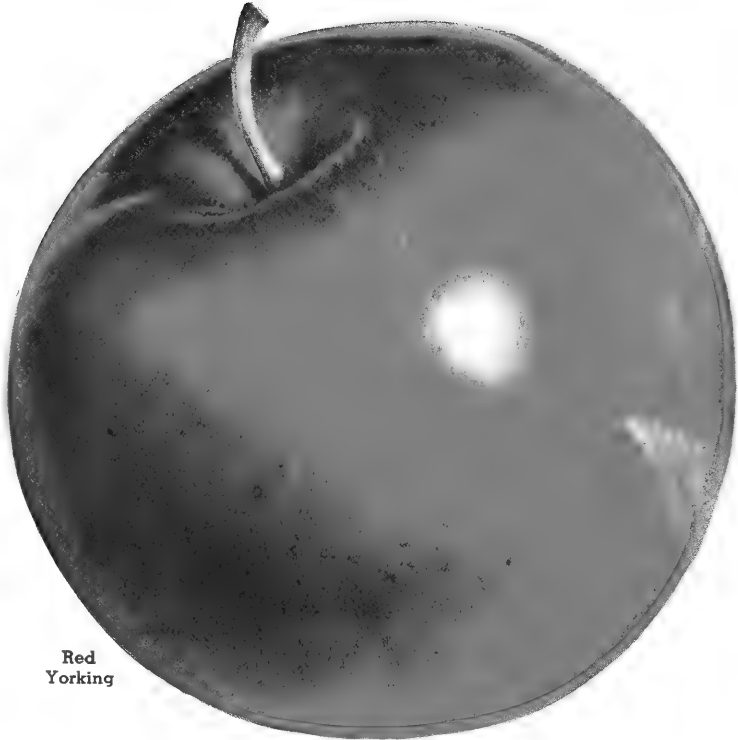

A selected bright red sport of the reliable old McIntosh. Flesh white, tender, juicy, sub-acid. Tree hardy, vigorous and healthy. A leading commercial variety especially desirable for fancy trade.

✓ GRIMES GOLDEN

Very large, skin golden yellow, flesh tender and crisp. A very good fall Apple. Grown in all sections of the country.

✓ YELLOW DELICIOUS

This alluring Apple with the strong appetite appeal never fails to capture the elusive nickel on the fruit stands. It is a national favorite, commanding highest prices on the market. A bright golden yellow, firm, crisp, juicy Apple. Tree bears when young, and yields heavily.

Red
Yorking

✓ RED YORKING (U. S. Plant Pat. No. 125)

A sport from its famous daddy, York Imperial. It has the same fine and dependable qualities except that its skin is thicker, it does not scald in storage, and ripens to a solid cherry-red color. Shows color five weeks earlier than regular York. An excellent shipping Apple. Plant these early coloring Red Yorkings and get into the market with a sure profit-making new variety that finds a ready sale.

HUNTER. Large, round, yellow freestone. The melting, juicy texture of the fruit, and its delicious flavor, furnishes one of the most delightful fruits for eating during the summer.

Sage

A low growing plant that is very practical for any home. Very neat and compact. Excellent for seasoning sausage and other meats.
Price: 3 for \$1.50.

Crab
Apples

Nectarine

English Walnut

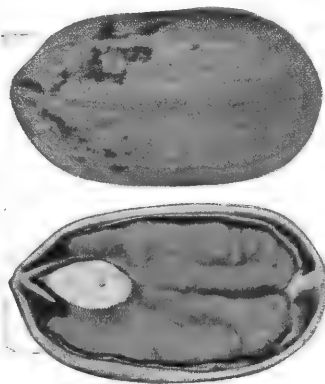

A Fine Decorative Walnut Tree

ENGLISH WALNUTS

A fine, lofty growing tree with handsome spreading head. Very hardy, will stand extreme cold. Produces abundantly. **Prices: 3 to 4 ft., grafted trees, \$4.00 each.**

PECANS

Strong grower. Very large, thin-shelled nuts, easily opened. **Price: 3 to 4 ft., grafted, \$4.00 each.**

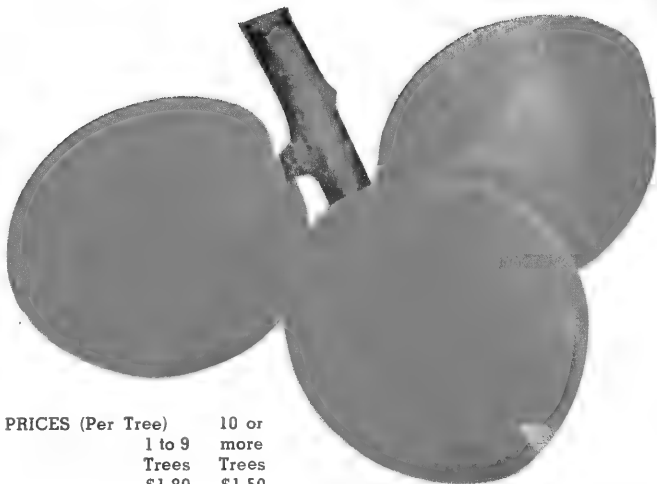

HARDY APRICOT TREES

They Grow Like Peaches

EARLY GOLDEN. Pale orange, juicy and sweet. A hardy, prolific bearer, ripening early in July.

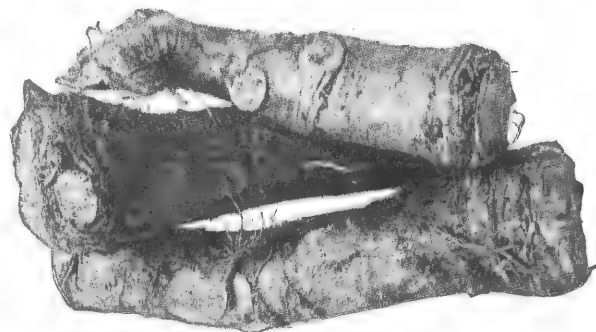

MOORPARK. Orange-yellow fruit with red cheek.

APRICOT PRICES (Per Tree)		10 or more
	1 to 9	Trees
3 to 4 ft.	\$1.80	\$1.50
4 to 5 ft.	2.00	1.75
5 to 6 ft.	2.35	1.95

ORANGE QUINCE TREES

Fruit is large, golden yellow; and of excellent quality; ripens early in September. Splendid for jellies and preserves. A dwarf type tree, growing about 10 to 15 feet tall, requiring but little space. **Price: 3 to 4 ft., strong trees, \$1.80 each.**

HORSERADISH

MALINER KREN. Very hardy, and thrives best in cool, moist earth, but will thrive well on any soil that produces crops of any kind. Plants are vigorous, and roots grow to a large size. **Prices: 1-yr., No. 1 plants, 10 for \$1.50; 25 for \$3.00; 100 for \$10.00.**

Decorative • Fruitful • Disease Resistant

The New

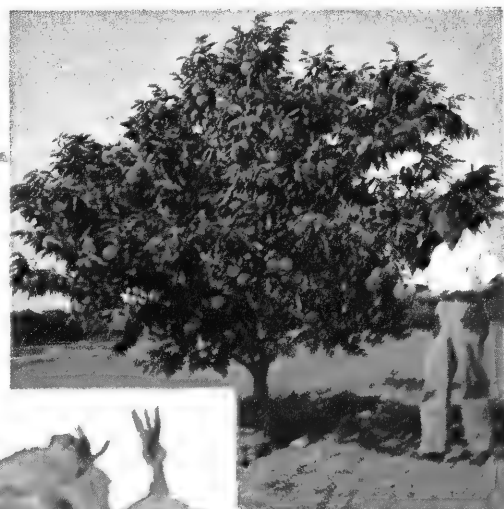

Fine Edible Chinese Chestnuts

Plant 3 or 4
for Best Results

Hardy, fast growing, early producing, blight resistant trees bear big, tasty Chestnuts the second or third year after planting. Chestnuts fully as good as native American and larger in size.

A BEAUTIFUL ORNAMENTAL TREE!

In a short time it becomes one of the most beautiful trees on your place and you'll look forward to each fall harvest of delicious nuts. **Price: 2 to 3 ft., strong trees, \$2.50 each.**

Chinese Chestnut

Buntings' Nationally Known PEACH TREES

Buntings' Healthy, Well-Grown Vigorous Trees are Worth More

Quality in Peach trees is not a mere matter of the size of the trees at the time of purchase. It includes the horticultural skill, knowledge, care and personal integrity actually employed from the securing of the Peach seed to the delivery of the stock.

RIPENING ORDER OF PEACHES

Use this list for selecting varieties to provide you with fruit throughout the season. Varieties are listed in their order of ripening from the very earliest to the latest.

Carman	Sullivan's Early Elberta	O'Boy
Redhaven	Blake	Shippers Late Red
Golden Jubilee	Belle of Georgia	Brackett
Goldeneast	J. H. Hale	Rio Oso Gem
Hale-Haven	Elberta	White Heath Cling

2 to 3 ft.	1.15	1.00

Fruit growers who are interested in planting trees in large numbers, write for special prices.

WHITE HEATH CLING PEACH

Fruit extra large, creamy white, pink cheeked, and the flesh is white, tender, juicy and delicious. Ripens September 10th to 15th.

GOLDENEAST

Ripens about fifteen days earlier than Elberta. A large, oval, firm, highly colored, yellow-fleshed freestone Peach, rapidly gaining popularity with commercial growers. Originated at the New Jersey Experimental Station. An excellent variety for shipping or for home use.

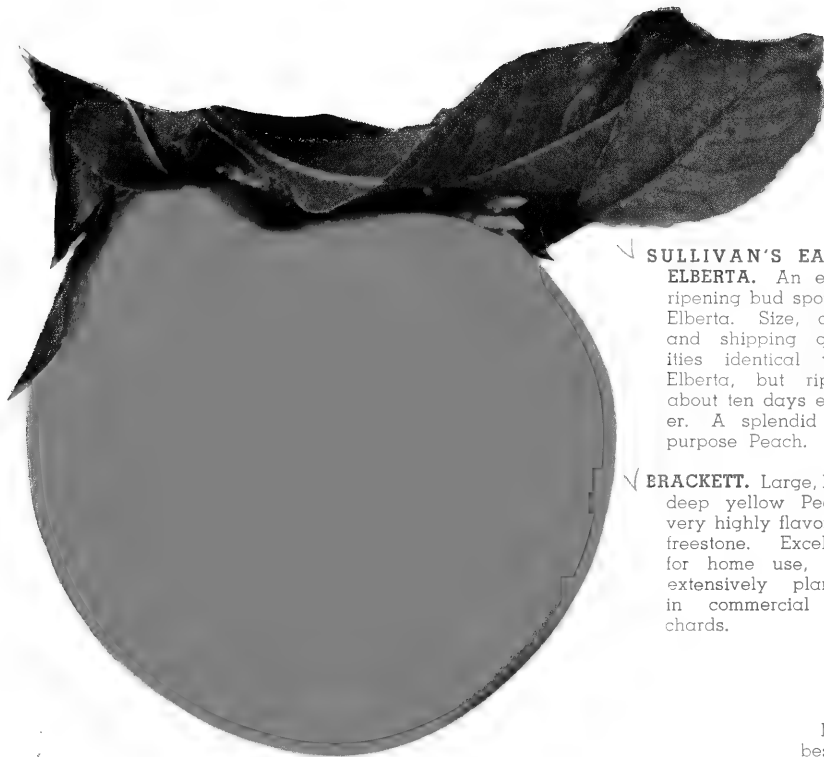

ELBERTA

Everyone is familiar with the old reliable Elberta. Its attractive appearance, large size, uniformly shaped fruits are well known throughout the world. Universally planted—Elberta leads all other Peaches in number of trees producing fruit. Most popular Peach on the market. Ripens midseason; roundish with a pointed tip, thick skin; flesh yellow stained pink near the pit; juicy, firm but tender, good quality freestone.

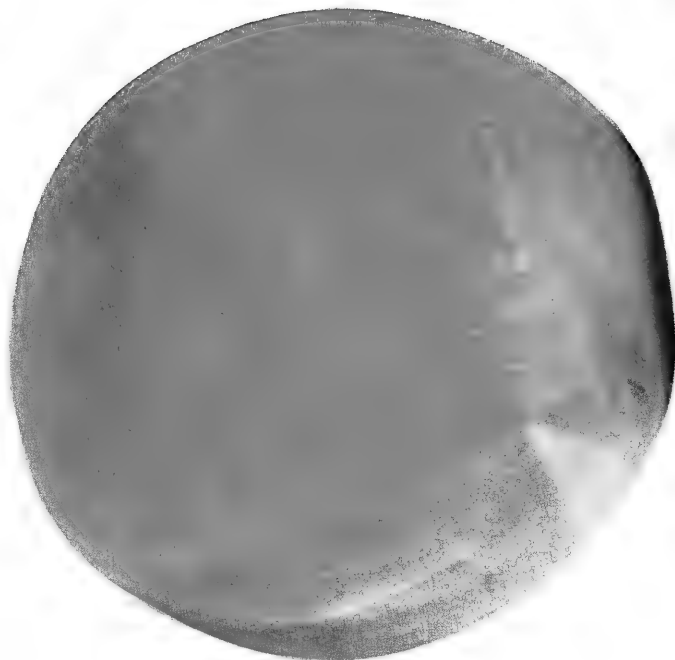

GOLDEN JUBILEE The Beau Brummel of Peaches

Unusually hardy, resists excessive cold; a sure cropper after severe winters and heavy frosts. Medium to large in size, ripens almost four weeks ahead of Elberta, and considered to be one of the best early ripening varieties. Fine flavor, yellow freestone, attractive color and fine texture. Profitable for market, excellent for home use.

✓ **SULLIVAN'S EARLY ELBERTA.** An early ripening bud sport of Elberta. Size, color and shipping qualities identical with Elberta, but ripens about ten days earlier. A splendid all-purpose Peach.

✓ **ERACKETT.** Large, late, deep yellow Peach, very highly flavored; freestone. Excellent for home use, and extensively planted in commercial orchards.

✓ **BELLE OF GEORGIA** A POPULAR WHITE PEACH

Large, attractive, white Peach with red cheek. Delicious flavor; one of the best market varieties. Very hardy, easy to grow. Home canners prefer Belle, and for some time it has been recognized as the best all-around white Peach on the market.

Belle ripens midseason; large size, freestone. The best white Peach of its season.

✓ **REDHAVEN**

EXTRA EARLY, BRILLIANT COLOR, FINE FLAVOR AND GOOD SHIPPER. Perfect freestone, medium to large in size, flesh yellow, fine textured, sweet and of good quality. Smooth skin, almost fuzzless; brilliant red color, with creamy yellow background. Bears heavy crops. A profitable commercial variety, and excellent for home use where a good quality early yellow Peach is desired.

✓ **BLAKE** (N. J. 117). Introduced by the N. J. Experimental Station. A large attractive red color blushed with yellow all over. Has firm and excellent flavored flesh. The trees are very good growers and fruit is highly desirable.

✓ **O'BOY.** A round and perfectly shaped Peach with a glowing red color blushed all over with dark red even before ripe. Flesh rich orange and bright red around the pit. Very firm flesh and skin. Bears a heavy crop of freestone fruit when 3 years old.

✓ **SHIPPERS LATE RED.** Follows Elberta in ripening. Skin yellow with attractive red coloring. Flesh yellow, juicy, sweet, pleasing flavor. Bears young; good late commercial variety. Freestone.

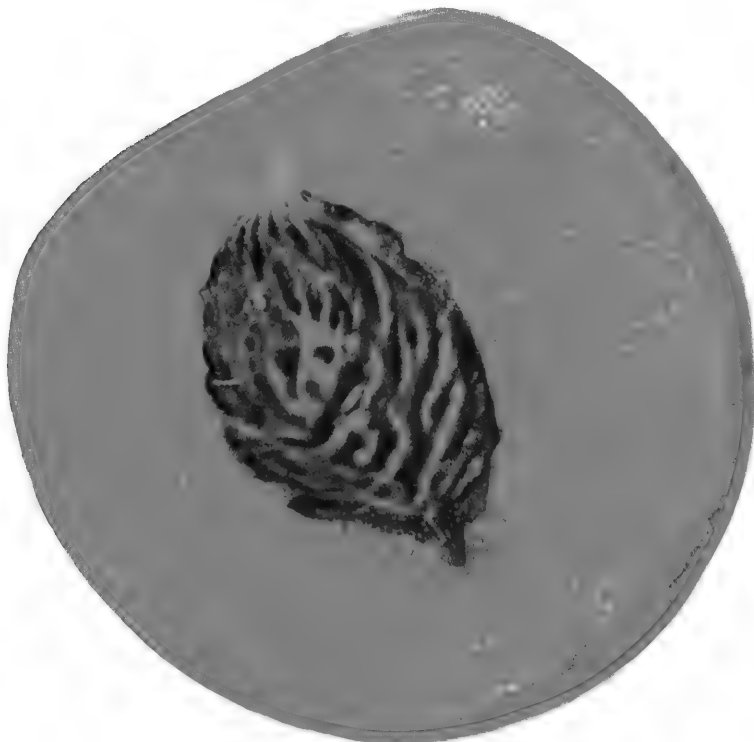

✓ **HALE-HAVEN**

A Premium Peach for Every Commercial Orchard.
Ripens Two Weeks Before Elberta.

Steadily gaining favor, because of its size, color, good shipping qualities and hardness in bud.

This marvelous new Peach, an introduction of the Michigan State Experiment Station, is a cross between the famous South Haven and J. H. Hale. It's an aristocrat of the first order. Extremely high color before ripening; withstands cold temperatures; very hardy; heavy bearer. A perfect freestone; yellow fleshed.

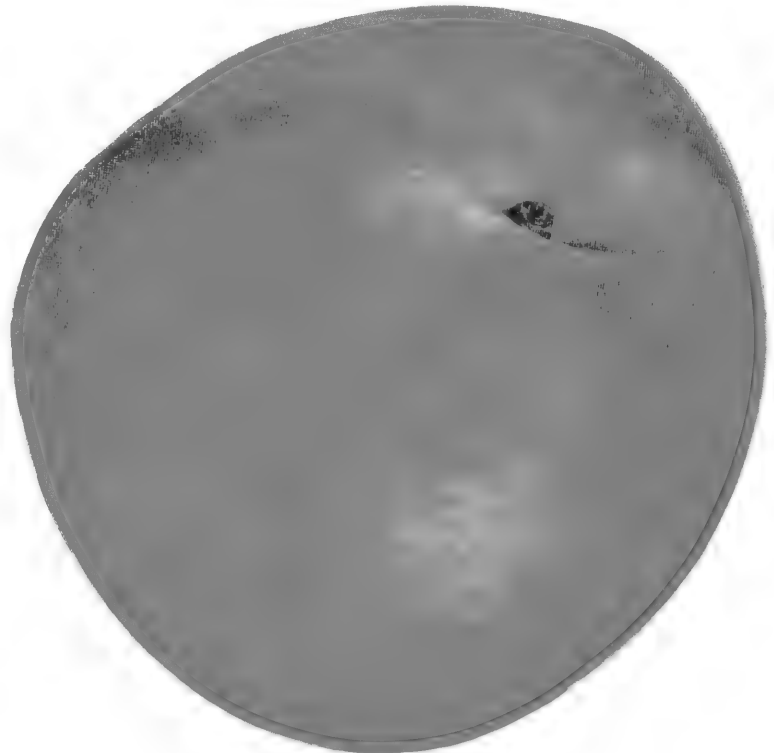

✓ **CARMAN.** A very hardy, semi-freestone Peach, ripening about the middle of July; skin pale yellow with blush on sunny side; flesh white, tender, sweet and melting. Ships well. Best early market Peach.

✓ **J. H. HALE**

A QUALITY PEACH for Home and Orchard Grower

Freestone. The skin is deep crimson, smooth, tight and almost without fuzz. Fruit is very large, round, firm, golden yellow, sweet and melting; quality excellent. Ripens just before Elberta. A very good one!

✓ **RIO OSO GEM**

An excellent late yellow freestone Peach, ripening about ten days after Elberta. Fruit large in size with brilliant red color. The flesh is firm and fine textured, with excellent flavor. Because of its firmness of flesh, it is particularly recommended for freezing, canning, etc., also a splendid sort for distant commercial markets. We believe it is the best all-purpose late yellow Peach on the market today.

RED PIE CHERRIES

The Universal Canning and Pie Cherry

These select record-breaking Montmorency trees develop into uniform, shapely specimens bearing heavy crops of very large fruit.

Fruit large, firm, ships perfectly. Bears very young, produces tremendous money-making crops and is successful everywhere.

Fruit Growers Consider This the Finest Sour Cherry In Cultivation

Because of its distinctive acid flavor, delightful in pies and preserves.

✓ **ENGLISH MORELLO.** Tree small, round-headed, with distinctly drooping branches. Fruit three-fourths of an inch in diameter, color dark red. Flavor tart, good quality; excellent for preserving and pies. Freestone. Ripens in July.

✓ **EARLY RICHMOND.** A leading sour Cherry, used extensively by canners, excellent for pies and preserves. Tree medium size, dense, upright-spreading. Fruit three-fourths inch in diameter, color light red, fruit thin-skinned, freestone. Ripens in June.

All Bunting Grown

BLACK TARTARIAN

The Best Sweet Cherry

Here is the best, most dependable and widely successful of the Sweet Cherries. Its great heart-shaped fruits (rich, dark purple hue) look irresistibly tempting. The sweet, mild flavor and rich tang have won it a nation-wide popularity both with commercial and home growers.

Black Tartarian

A Prime Favorite

For the big market trade hundreds of miles from orchards, the local fruit markets or fruit stands scattered all over the country, they offer a dependable yearly yield that is so sure to bring profit to the grower.

- ✓ **GOVERNOR WOOD.** Light yellow with red cheek; tender, rich, delicious; very fine; large, roundish. June.
- ✓ **NAPOLÉON.** Light lemon-yellow, tinged with red. Late June.
- ✓ **YELLOW SPANISH.** Ripens early in June. Fruit large, color yellow. Tree vigorous grower.

VINES

for the Out-of-Doors
Nature's
Finest Draperies

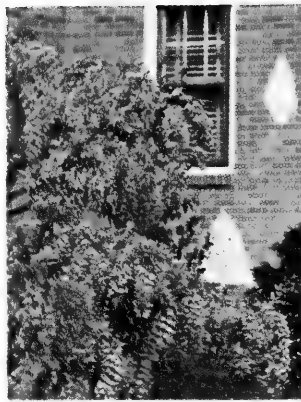

Clematis Jackmani

CLEMATIS, LARGE FLOW-ED. Very popular. Profusion of large flowers during summer and autumn. Varieties: **Andre** (red); **Henryi** (white); **Jackmani** (purple); **Ramona** (blue). Price: 2-yr. vines, \$1.50 each.

CLEMATIS PANICULATA. Flowers snow-white entire summer and autumn. Price: 2-yr. vines, \$1.00 each.

PURPLE WISTARIA. Purple blooms in great profusion during spring. Fine for porches and trellises. Price: Strong, 2-yr. vines, \$1.50 each.

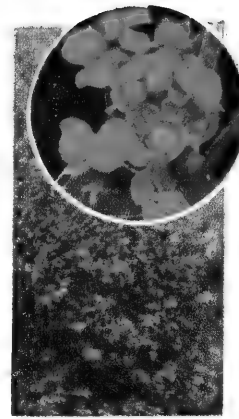

Wistaria

TRUMPET VINE (Bignonia radicans). Orange flowers in midsummer. Price: 2-yr. vines, 75c each.

SILVER LACE VINE (Polygonum auberti). Very fragrant white flowers during the month of September. Price: 2-yr. vines, \$1.00 each.

GOLDFLAME HONEYSUCKLE. Blooms all summer. Showy tubular flowers, flame-red outside, bright yellow inside, borne in clusters. Delightfully fragrant. Price: 2-yr. vines, \$1.00 each.

AMERICAN BITTERSWEET (Celastrus scandens). Light green glossy foliage; large clusters of orange-scarlet berries retained throughout the winter. Price: 2-yr. vines, 75c each.

Bittersweet

Boston Ivy

BOSTON IVY (Ampelopsis veitchi). Grows very dense. Foliage green and very healthy. Price: 2-yr. vines, \$1.00 each.

HALL'S HONEYSUCKLE. White flowers from May until November. Price: 2-yr. vines, 75c each.

REGEL'S PRIVET. A low, spreading shrub, prized for its horizontal branching and for its dense foliage which turns to a purple-bronze in the fall. Blooms in June with small lateral clusters of white flowers, followed by little blue-black berries which look like small bunches of miniature Grapes. Price: 18-24 in., \$1.00 each.

Buntings' Hedges for Long Life

No Painting - No Repairs - Protecting and Always Good Looking

AMUR RIVER NORTH PRIVET. Foliage small and attractive. Vigorous and very compact grower. Extremely hardy and will stand the low temperatures of the northern states. Particularly recommended for planting in sections where the temperature drops to zero or below.

CALIFORNIA PRIVET. America's leading hedge plant. Its foliage is of the deepest, richest shade of green and stays on until late winter. Very hardy; easily and quickly pruned.

MULTIFLORA ROSE

Bull Strong, Hog Tight, Horse High

(*Rosa multiflora japonica*). Is fast becoming one of America's most popular "living fences" on the American farm. Not recommended for small town lots due to immense growth. Produces an impregnable barrier for all livestock within 3 or 4 years. Its density provides a valuable windbreak. Its tight, stock-holding mat of thorns provides an excellent game refuge for wildlife cover, and adds beauty to the farm, producing white blooms profusely in early spring followed with red berries in the fall and winter. Price: 9 to 12 inch plants, 25 for \$2.25; 50 for \$4.00; 100 for \$7.50; 1000 for \$70.00.

GREEN-LEAF BARBERRY. Well known; needs little description. Dark green leaves which turn to red and yellow in the fall. Thorny bush which makes good hedge or specimen plants. Graceful, drooping branches are loaded late in summer with bright red berries that hang on most of the winter.

	10	100

Phlox

Bleeding Heart

BLEEDING HEART

A favorite in Grandmother's garden a half century ago, it lends a fine romantic touch to any garden. Thrives in partial shade, will grow in full sun. The plant grows larger, more beautiful each passing year.

HARDY ASTER

These tall growing plants are planted extensively, very hardy. Wonderful for cutting. Four shades offered: pink, red, white and blue.

Aster, Harrington's Pink

LARGE FLOWERING HYBRID MUMS

These beautiful taller growing Mums produce shapely blooms which are excellent for cutting and arranging in colorful bouquets. Plants bloom earlier than regular varieties. They are very hardy and bloom will hold its beautiful color longer. We offer the following varieties:

Butterball. Yellow.
Heatherbloom. Pink.
Glacier. White.
Olive Longland. Red.

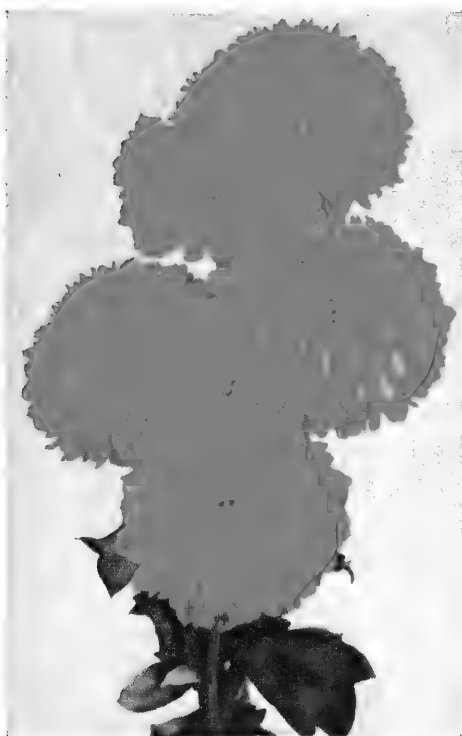

Thousand Bloom CUSHION MUMS

This compact bush is literally covered with hundreds of dainty flowers during late summer and fall. They retain their globular shape and often make a ball-shaped plant with about 2½-ft. spread. Colors: red, pink, white and yellow.

Pyramidal Arbor-Vitae

3 YEWS - The Aristocrats of Evergreens

Noted for its beautiful dark green foliage and freedom from disease. See descriptions of varieties above. They will definitely add to the beauty of your planting. Especially recommended is the group illustrated above for landscaping each side of your doorway. **Special offer: One each of Hicks' Upright Yew, Spreading Yew and Upright Japanese Yew, 12 to 15 in. size, 3 for \$9.50.**

TWO FAMOUS ARBOR-VITAE

The very popular Pyramidal, 15-18 in. grade, and the formal Globe, 10-12 in. grade, an excellent combination for a doorway planting. (See further description below). Especially priced at **\$4.50.**

GLOBE ARBOR-VITAE. Very dwarf in growth, round or globe shaped; foliage dark green. Does not require shearing. **Price: 8 to 10 in., \$2.25 each.**

PYRAMIDAL ARBOR-VITAE. Tall, slender; dense dark green foliage. The best Arbor-Vitae grown. **Price: 15 to 18 in., \$2.50 each.**

Broadleaf Evergreens

The Aristocrats of the Evergreen Family

Choose varieties from this list for specimen or group planting on your lawn. Their blooms will enhance the beauty of your landscape, add a blaze of color to your outdoor decoration and provide a source of continued satisfaction. Beautiful throughout the year.

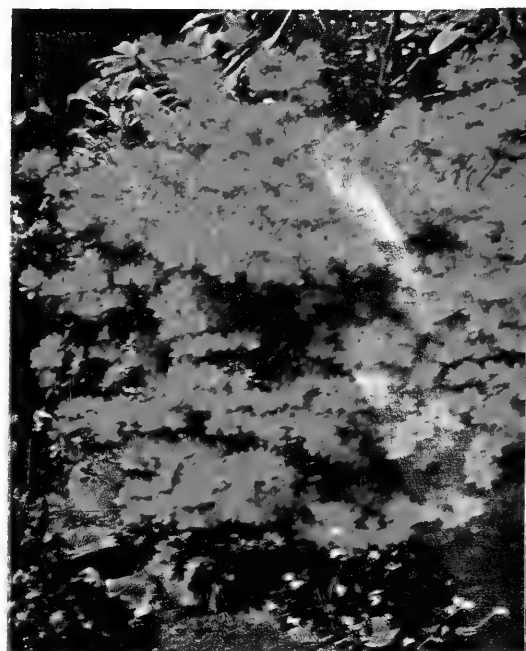

Azaleas - Lovely in every Garden

A BURST OF FRESH COLOR IN EARLY SPRING

AZALEA HINODEGIRI. Most popular of all evergreen Azaleas. Attractive deep green foliage and bright scarlet flowers completely cover the plant.

AZALEA, CORAL BELLS. Brilliant, coral-pink flowers, showy against the dark green foliage.

Price: 6 to 8 in. plants, \$1.85 each.

Azalea Hinodegiri

ABELIA GRANDIFLORA

One of the most beautiful and useful of all flowering broadleaves. Glossy foliage which is evergreen in areas where temperature does not drop below zero. Grows to a height of about 5 to 6 feet, making it ideal for foundation planting; also used for hedges and shrub borders. Small, light pink, tubular blossoms appear in July and continue until frost. Price: 15 to 18 in. \$1.50 each.

PLEASE NOTE

Our Evergreens and Broadleaves are carefully grown, properly spaced in the nursery rows for symmetrical development. They have been transplanted, and will be carefully dug to get all the tender rootlets. The roots will be puddled in mud and wrapped in damp moss for shipment. Plant immediately after moss is removed from roots. This method of packing saves the vital roots, insures good growth and makes possible low cost shipments.

EUONYMUS PATENS

The most satisfactory of all Euonymus. Low, dwarf grower; extremely hardy plant. Produces white flowers in the spring, followed by red berries which remain on the plant until well into the winter. An excellent foundation plant. Price: 15 to 18 inch, \$2.50 each.

EVERGREEN PRIVET (Ligustrum Lucidum)

One of the most popular Broad-leaved Evergreens. Ideal for foundation planting, borders and groups. Adapted to both full sunlight and partial shade. White flowers in summer, blue-black berries throughout the winter. Price: 12 to 15 inch, \$1.75 each.

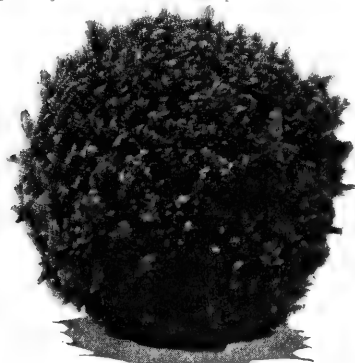

PIERIS JAPONICA

Growth is somewhat different from that of most broadleaf evergreens, plant has a graceful drooping of its light green foliage. Produces white drooping flowers in May. Price: 8 to 10 inch, \$1.75 each.

JAPANESE HOLLY (Ilex Crenata Rotundifolia)

A beautiful, slow-growing Broad-leaved Evergreen. Oval, dark green, glossy leaves; blue berries. One of the best dwarf evergreens suitable for foundation plantings. Price: 10 to 12 inch, \$1.95 each.

DWARF ENGLISH BOXWOOD

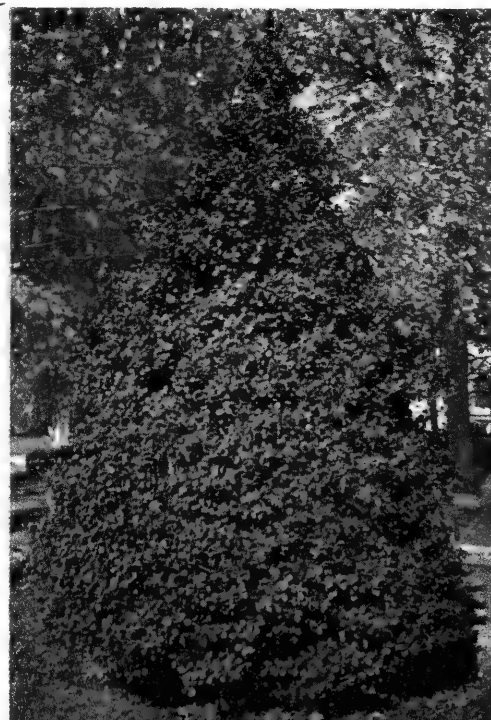

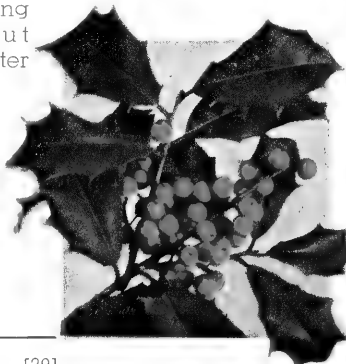

This is the round-leaved, slow-growing, compact Boxwood frequently found on old estates in Virginia and along the East Coast. Specimens over one hundred years old, having a spread of 8 to 10 feet, are still the pride of many of the famous gardens. Will grow in sun or partial shade; beautiful throughout the year. Price: 6 to 8 inch, \$1.25 each.

Now - The Ever Favorite American Holly

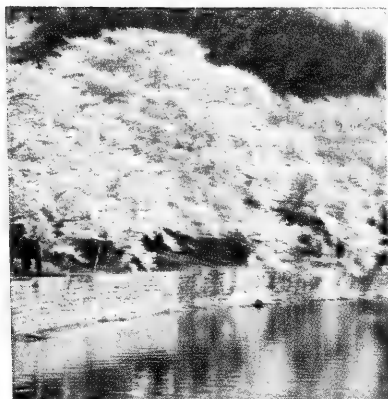

(Ilex Opaca)

Noted for its Shiny and Prickly
Leaves and Red Berries

The familiar Christmas Holly. Very attractive, dark green, spined leaves throughout the year; the red berries are formed in clusters in late fall and hang on throughout most of the winter months. A slow growing pyramid-shaped tree, excellent for lawn planting. Price: 12 to 18 inch, \$2.25 each.

Buntings' Finest Lawn and Garden Trees

*Upright Flowering Cherry
along Potomac Basin in
Washington D. C.*

Well known because of the renowned plantings in Washington. They are now so well established and in such demand that you need not be told of their value for ornamental purposes.

*Japanese
Magnolia*

Deciduous trees, growing only 12 to 15 feet in height, branched from the ground. Tulip-like flowers are produced in early spring just ahead of the foliage. Ideal for use as specimens for lawn planting. Your choice of varieties: *Soulangeana*, pink flowers; or *Liliflora Nigra*, with flowers that are rose-purple outside and white within. Price: 18 to 24 inch, \$2.50 each.

Red Flowering Dogwood

All Straight Stemmed Well Rooted Specimens

TWO CHERRY TREES DELUXE!

KWANZAN UPRIGHT FLOWERING CHERRY

Double dark pink blossoms in early spring. Upright, strong growers, frequently blooming the first season after being transplanted. Blossoms large, full, literally covering the stems. Price: 4 to 5 ft., \$4.00 each.

WEeping FLOWERING CHERRY

A weeping form of the popular Double Flowering Cherry. Has slender, pendulous branches hanging nearly to the ground. In early May the branches are strung with showy rose-pink flowers. Price: 2-year heads, 5-6 ft. stems, \$8.00 each.

WEeping FLOWERING PEACH

Beautiful, small trees, equally charming for the small garden or as a specimen on the lawn. Rich, brilliant red flowers, closely set on twisting, arching branches. Price: 2-year, No. 1 trees, \$2.50 each.

PURPLE-LEAF PLUM

A profusion of blooms in May. Deep bronzy purple foliage through spring months, lighter in color during summer, but attaining brilliant color again in the fall. Price: 4 to 5 ft., \$2.45 each.

JUDAS TREE (Redbud)

A small tree or large bush with a broad, round top. In May, before the leaves appear, it bears dense masses of deep rose-pink flowers. Price: 3 to 4 ft., \$3.00 each.

ELEYI FLOWERING CRAB

Attractive red foliage in spring. Smothered with large reddish pink flower clusters during flowering period, and followed by conspicuous brilliant scarlet fruit that is excellent for jelly. Very showy. Price: 4 to 5 ft., \$2.00 each; 5 to 6 ft., \$2.50 each.

MIMOSA (Silk Tree)

Acacia-like foliage. Low, flat-topped tree, almost umbrella-like. Feathery, fragrant pink blossoms in summer. Price: 5 to 6 ft., \$4.00 each.

The King of the Maple Trees! CRIMSON KING

(Patent No. 735.) Undoubtedly the very best of all red or deep purple foliaged Maples. In the spring Crimson King bursts forth with this beautiful foliage, and the brilliant color is maintained in the leaves until autumn; it glistens in the sun. Truly the King of all Maples. Perfectly hardy, well shaped tree. Price: 5 to 6 ft., \$6.00 each.

DOGWOOD

WHITE FLOWERING DOGWOOD. In early May this small native tree is a cloud of white flowers, and in the autumn the upper sides of the leaves turn a brilliant crimson. Price: 3 to 4 ft., \$3.00 each.

RED FLOWERING DOGWOOD. A profusion of pink and red flowers in May. Its foliage is unusually brilliant in fall. Price: 2 to 3 ft., \$4.00 each.

The Best Flowering, Ornamental and Shade Trees

SILVER MAPLE. Especially popular because of being a fast grower. Light green foliage, silvery underneath. Excellent for broad streets and large home grounds and useful in public parks. **Price:** 6 to 8 ft., \$3.00 each; 8 to 10 ft., \$4.00 each.

WISCONSIN WEeping WILLOW. Long, pendulous branches droop to the ground with matchless grace. Creates exquisite effects on the margin of streams or lakes. An excellent quick growing tree with many uses. **Price:** 6 to 8 ft., \$3.00 each.

ORIENTAL PLANE TREE. A dense growing tree with broad leaves which makes excellent shade. Grows very good under adverse growing conditions. Matures at about 40 to 50 feet and has excellent form. Recommended for either shade or street planting. **Price:** 6 to 8 ft., \$5.00 each.

HOPA FLOWERING CRAB. A handsome ornamental tree. Masses of bright red flower clusters are produced in early spring, followed by red fruits in autumn. **Price:** 5 to 6 ft., \$2.50 each.

EUROPEAN MOUNTAIN ASH. A very attractive, small, hardy tree which bears clusters of scarlet berries from July to winter. **Price:** 6 to 8 ft., \$6.00 each.

CUT-LEAF WEeping BIRCH. Distinguished for its white bark, light green leaves which are finely cut, and its long, drooping branches. **Price:** 6 to 8 ft., \$6.50 each.

GOLDEN CHAIN TREE. Shrub-like tree with long hanging clusters of yellow flowers in May. The picture accurately portrays the unusual beauty of this small ornamental tree. Excellent for planting in areas where space is limited. **Price:** 5 to 6 ft., \$6.50 each.

NORWAY MAPLE. Especially suited for street planting and on the grounds of small homes. Symmetrical, dense, round-headed tree. As it makes only a medium size tree, can be used where space does not permit larger growing types. **Price:** 6 to 8 ft., \$5.50 each; 8 to 10 ft., \$6.50 each.

CHINESE ELM. A very rapid growing tree of dense pyramidal form. Slender, grayish branches, and small, fresh green leaves. **Price:** 6 to 8 ft., \$3.25 each.

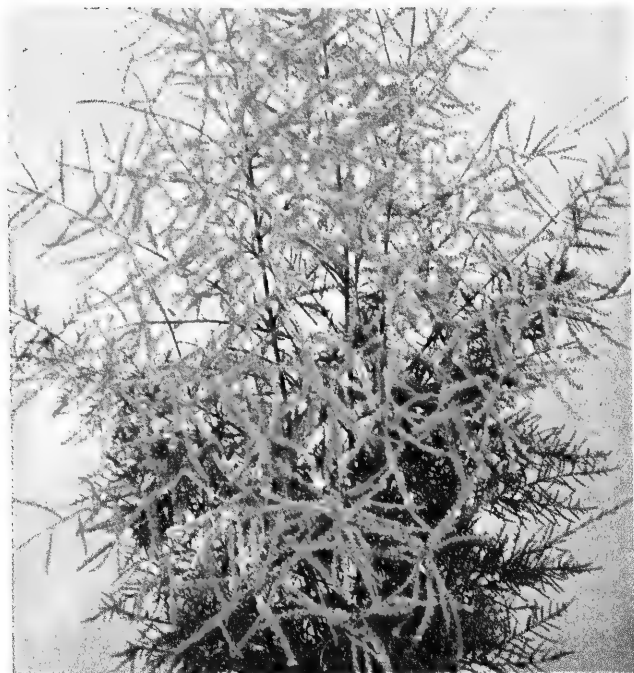

LOMBARDY POPLAR. A tall spire-like tree. Effective for screens and vertical accents. **Price:** 6 to 8 ft., \$1.60 each.

DOUBLE FLOWERING PEACH. A striking, colorful tree for the spring garden, bursting into blossom two weeks ahead of Dogwoods. Double, long lasting, Rose-like flowers cover the twigs, remaining on for 10 days or more. Your choice of colors: red, white and pink. **Price:** 4 to 5 ft., \$2.00 each.

TAMARIX, PINK CASCADE

(Plant Pat. No. 1275)

A newcomer from England, proven in trials for several years. Masses of flesh-pink flowers are produced when many other shrubs are not in bloom. **Price: 2 to 3 ft., \$2.50 each.**

DWARF RED BARBERRY, CRIMSON PYGMY

From Holland came this miniature form of the Red-Leaved Barberry. Mature plants, unpruned, measure about 20 inches in diameter and 8 inches in height. Makes a fine showing in front of any shrub planting. Plant in full sunlight. **Price: 2-year plants, \$2.00 each.**

We Bring You From England
the Lovely New

HYPERICUM HIDCOTE

Grows into a twiggy shrub about 18 inches tall and about the same diameter. Throughout the summer it is covered with bright yellow, cup-like flowers about two inches in diameter. During severe winters it sometimes freezes back to the ground, but this doesn't matter because it springs up from the base producing each summer its masses of blooms. A fine low-growing plant for the foreground in any planting. Flowers are fragrant and appear in late June, continuing until mid-October. **Price: 2-year plants, \$1.75 each.**

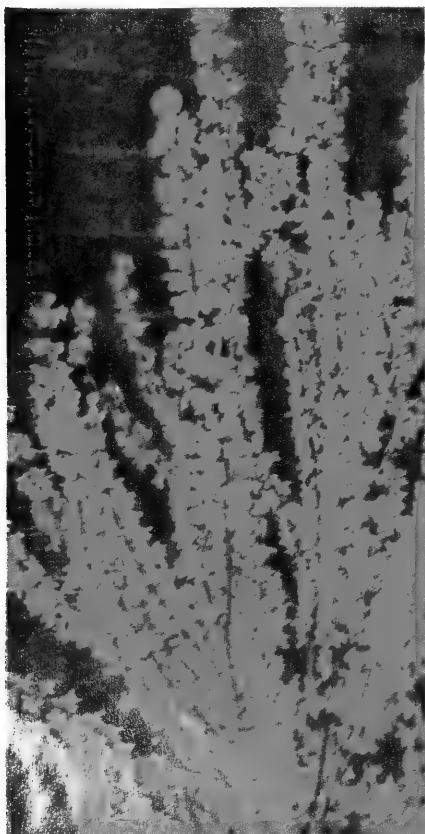

The Lovely New LYNWOOD GOLD FORSYTHIA

This splendid new Forsythia originated in Ireland. Branches are erect, and covered with golden yellow flowers from top to bottom, very full and not affected by the weather. Excellent for cutting and flowering in the house during the winter months. **Price: 2 to 3 ft., \$2.00 each.**

NEW SUNBURST LOCUST

(Plant Pat. No. 1313)

Something new and wonderful to add that touch to any landscape. The bronze-gold foliage on the tips of this thornless Locust increase the value of your home. Even more resistant to insects than the common Honey Locust. **Price: 5 to 6 ft., \$7.50 each.**

ALMOND, PINK FLOWERING. A beautiful small shrub, bearing an abundance of small, double, Rose-like flowers, closely set upon twigs, before the leaves appear in early spring. Price: 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.

HYDRANGEA OTAKSA. Large blue or pink blooms in mid-summer (color depending upon soil acidity); either color most attractive. Low-growing plant, popularized by the extensive plantings at Atlantic City, N. J. Price: Strong, 2-yr. plants, \$1.75 each.

KERRIA. A rather tall, erect growing shrub bearing bright yellow, double flowers throughout the summer. Price: 18 to 24 inch, \$1.50 each.

FLOWERING QUINCE. The popular Cydonia. Literally covered with brilliant double scarlet blooms in early spring. Price: 18 to 24 inch, \$1.00 each; 2 to 3 ft., \$1.25 each.

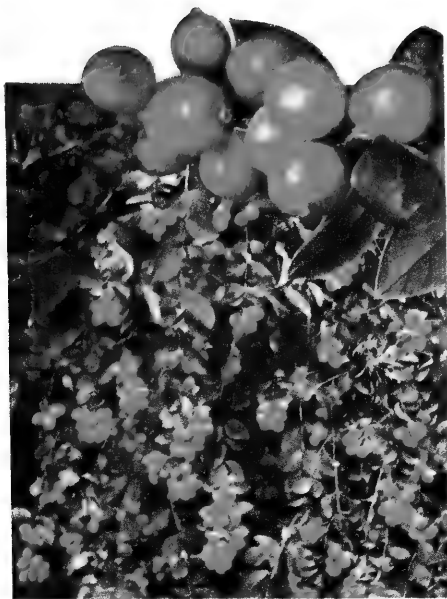

SPIREA THUNBERGI. Charming rosettes of pure white flowers in May. Beautiful, dense, fern-like foliage. An excellent low-growing plant for foundation plantings. Its blooms are produced early, at a time when thoroughly appreciated. Price: 2 to 3 ft., \$1.50 each.

SPIREA ANTHONY WATERER. A dwarf and very dense little shrub which bears flat clusters of rose-pink flowers all summer. If bloomed heads are removed, it will continue to flower more abundantly. Price: 12 to 15 inch, \$1.00 each; 15 to 18 inch, \$1.25 each.

SHRUBS

Practical and Inexpensive

CORALBERRY or INDIAN CURRANT. A dwarf shrub which thrives in the shade. The coral colored berries last until late winter, and are produced profusely. Price: 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.

HYDRANGEA P.G. Pyramids of creamy white flowers which are tinged with pink in late summer. Hardy, popular plant. Price: 18 to 24 inch, \$1.00 each; 2 to 3 ft., \$1.25 each.

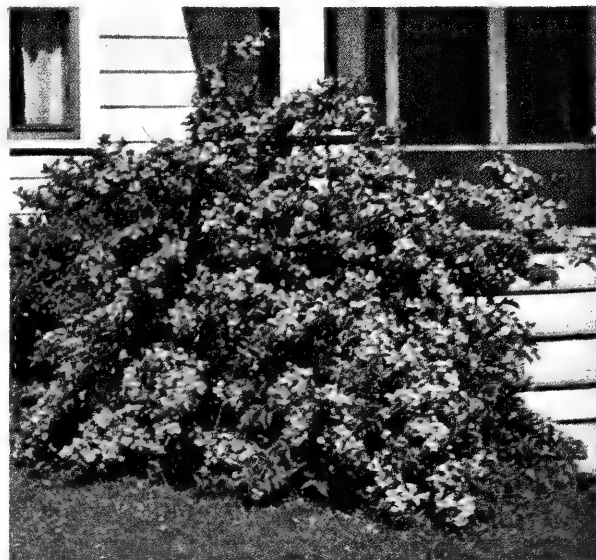

HONEYSUCKLE, Tartarian Pink. A profusion of lovely flowers make a delightful contrast with bright green leaves in late spring. Price: 18 to 24 inch, \$1.00 each; 2 to 3 ft., \$1.25 each.

WEIGELA VANICEKI. Vigorous growing red Weigela similar in flower and foliage to Eva Rathke. One of the finest red Weigelas. Blooms heavily in the spring, and again there is a fine showing of bloom in late summer and autumn. Price: 1½ to 2 ft., \$1.25 each; 2 to 3 ft., \$1.50 each.

WEIGELA, EVA RATHKE. Free bloomer, beginning in May and blooming intermittently until late fall. Bright red flowers. Dwarf grower, suitable for foundation plantings. Price: 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.

CRAPE MYRTLE. (Spring planting only.) Strong growing shrub, adapting itself to almost any soil and condition except in northern sections where temperatures often drop below zero. Does very well south of Philadelphia. Leaves bright green; the blooms are large panicles of crinkled little florets. Blooms late July and August. Colors: pink or red. Price: 2 to 3 ft., \$1.75 each.

WEIGELA ROSEA. Best known and most extensively planted of the pink Weigelas, blooming abundantly in May and June. Remarkably showy, trumpet-shaped flowers of brilliant pink. Price: 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.

Weigela Rosea

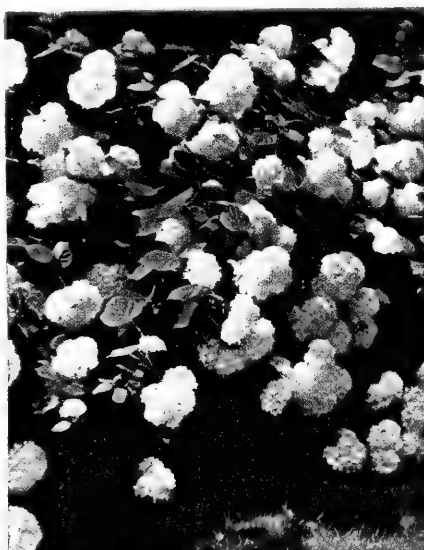

SWEET SHRUB
(*Calycanthus floridus*)

Often called Strawberry Shrub. Neat, compact, with large leaves and small, double, dark mahogany blossoms with rare fragrance. Blooms May-June with a few blossoms from time to time during summer. Price: 1½ to 2 ft., \$1.00 each.

Sweet Shrub

Crape Myrtle

HYDRANGEA, HILLS OF SNOW (*Hydrangea A.G.*). Known for its profusion of round, snow-white blooms which appear early in July and last until late September. Very hardy. Price: 18 to 24 in, \$1.10 each; 2 to 3 ft., \$1.35 each.

Weigela Vaniceki

For Modern Plantings Plant Buntings' Fine Shrubs

SPIREA, BLUE MIST. Low growing shrub covered with numerous clusters of powdery blue, fringed flowers from August to frost. The foliage is lanceolate and slightly toothed and silvery green in color. Hardy. Price: 2-yr., No. 1 grade, \$1.25 each.

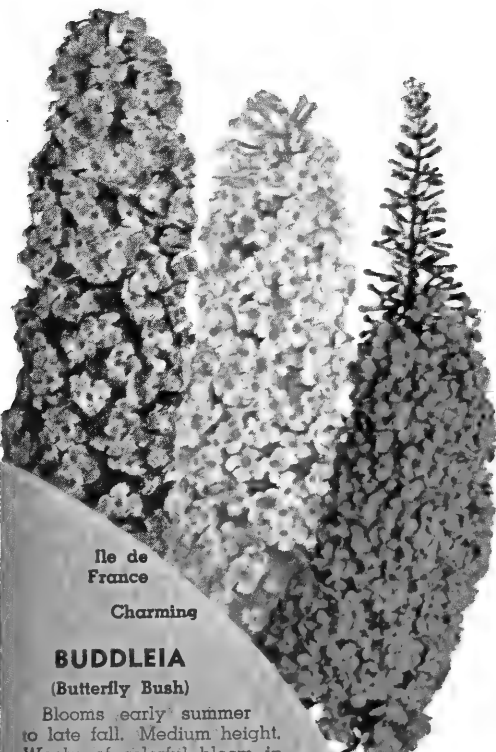

SPIREA VAN HOUTTE. A medium sized shrub covered in late May and June with pure white flowers. Foliage is dark green and fine textured. A plant with many uses, this is a well known, popular shrub. Price: 18 to 24 in., 90c each; 2 to 3 ft., \$1.15 each.

BEAUTYBUSH (*Kolkwitzia amabilis*). Completely covered with beautiful cameo-pink flowers during June and July. Acclaimed as the most beautiful and useful flowering shrub. Ideal for planting on the lawn, in the shrub border or any place where a blaze of color is desired. Price: 1½ to 2 ft., \$1.25 each; 2 to 3 ft., \$1.50 each.

DOUBLE BRIDALWREATH SPIREA (*Prunifolia plena*). Small, Plum-like double white flowers produced profusely in early spring. Red fall foliage. Price: 2 to 3 ft., \$1.50 each.

ENCHANTMENT MOCKORANGE. (Double.) Produces profuse, long, thick panicles of double white flowers on erect branches in early spring. Sweetly fragrant. Very hardy. Price: 2 to 3 ft., \$1.25 each.

Ile de France

Charming

BUDDLEIA (Butterfly Bush)

Blooms early summer to late fall. Medium height. Weeks of colorful bloom in panicles up to 18 inches long. Fragrance attracts butterflies, giving it the name commonly used.

ILE DE FRANCE. Purplish blue.

CHARMING. Long panicles of pink.

DUBONNET. A dark wine-dubonnet.

Price: Choice of varieties, 18 to 24 inch, 85c each; 2 to 3 ft., \$1.00 each.

Dubonnet

Enchantment Mockorange

ALTHEA (Rose of Sharon). Upright, very hardy. Color spot of the fall. Begins blooming in early summer and continues through the fall months. Your choice of red, white, pink or blue. Price: 1½ to 2 ft., \$1.00 each; 2 to 3 ft., \$1.25 each.
